## Surprise Cold Snap Strikes Cars and Homes

Hundreds of Dollars Damage Here as Radiators Freeze and Roofs Burn

**Fourteen Degrees Of Frost Reported**  
Snap Expected to Continue For Day Or Two; Prospect of Skating

Victoria danced to the tune of "It's Winter Again," to-day and house and car owners paid the fiddler. Coming after two or three days mild, sunny weather, a cold snap, intensified by a biting northeast wind, yesterday evening drove the mercury down to a minimum of eighteen degrees above in the standard screen at the Dominion Observatory on Gonzales Heights.

Householders wakened to find their outdoor water taps, turned on for early gardening operations, frozen. Some were forced to leave their blankets to fight roof and chimney blazes, a dozen of which were reported in the twelve hours from midnight.

Car owners, some of whom had drained their anti-freeze when the warm weather of last week set in, were busy to-day thawing out radiators. Together, fires, plumbing trouble and frozen cars caused a loss of hundreds of dollars in the city. No major damage was reported as noon-to-day.

**FOURTEEN DEGREES OF FROST**  
While the screen thermometer dropped fourteen degrees below the freezing point at its coldest during the evening, on the grass at the hilltop it was three degrees lower and had just a point in the screen shortly before noon. The wind, assuming gale proportions, blew thirty-four miles an hour from the northeast between 4 and 8 o'clock. Two hours later it had gone up to forty-two and reached forty-four between 8 and 9 o'clock. It was abating slightly this forenoon, blowing at thirty-six shortly before 12 o'clock. But although the wind was dropping, low temperatures were expected to continue to-night and to-morrow.

Prospects for skating loomed large with the probability of continued cold for a day or two. But only the shallow ponds would be safe for some time, it was stated.

## Publicity Bureau Activities Shown

Value of Work Done in Bringing Tourists Here Outlined in Annual Report

Many Fields Covered in Statement Presented to Members at Luncheon

Activities of the Victoria and Island Publicity Bureau during 1932, the successes its efforts had met and the value attached to them, were reviewed in the annual report submitted to the membership at the general annual meeting in the Chamber of Commerce auditorium to-day.

To meet a decreasing revenue coming concurrently with a drop in travel, the bureau effected many economies including the shifting of quarters from Broadbent Street to 1119 Government Street and reduction of salaries along with overhead operating expenses, the report said.

A scheme for eastern Canadian newspaper advertising was rejected and the bureau advertising campaign was discontinued. No new billboards were erected and no improvement was made on existing boards. The expenses attached to advertising radio programmes over stations KOMO and KJR, in Seattle precluded those endeavours.

## MRS. GANDHI IS SENTENCED

Bombay, Feb. 8.—Mahatma Gandhi's wife, arrested last week for illegal political activities, was sentenced to six months' imprisonment, to-day and fined 500 rupees, in default of which the full sentence will be extended six weeks.

Her husband has been in prison at Poona since January, 1932, for violating government ordinances in connection with the civil disobedience campaign.

## WINTER GRIPS ALL CANADA

Blizzards in Northern Alberta and South Saskatchewan as Mercury Slumps

Winnipeg, Feb. 8.—Sweeping eastward on the wings of a strong snow-laden blast of blizzard proportions gripped western Canada for the fifth consecutive day. Traffic was impeded by heavy snow which blocked highways, delayed trains and hampered air travel.

Plunging to record below zero marks, the cold wave was accompanied by severe blizzards in northern Alberta and southern Saskatchewan. Fine, hard-snow, whipped along by a biting north wind, halted traffic on highways. The death toll from the frigid wave reached two, with discovery of the frozen body of Peter Myron, fifty-one, in his shack near Inwood, Man. The first tragedy occurred when Walter

(Turn to Page 2, Col. 7)

## British Fliers Land Plane in Southwest Africa, Set Record

WOULD AMEND RAILWAY BILL

Ottawa, Feb. 8.—A proposal to vest in the Board of Railway Commissioners all the arbitral powers which the bill now before the Senate railway committee contemplates giving to the arbitral tribunal was discussed by the committee to-day. Senator James Murdock, Liberal Ontario, brought up the question when he moved an amendment, the effect of which would be to delete the whole of that portion of the bill creating the tribunal.

## MANY FIRES ARE ATTENDED

Department Kept Busy By Cold Spell; Ten Alarms This Morning

The icy blast which blew out of the north this morning brought with it an increased fire hazard as house-keepers stoked their fires high to keep warm.

Up to noon ten fire alarms had been answered by the department since midnight, the damage in most cases being small.

Following were the fires listed:

12:40 a.m.—437 Government Street, fire caused by overheated chimney.

7:35 a.m.—919 View Street, roof fire.

7:40 a.m.—1825 Pandora Avenue, chimney fire.

8:00 a.m.—1647 Monterey Avenue, chimney fire.

8:05 a.m.—940 Fairfield Avenue, roof fire.

8:10 a.m.—1140 Woodstock Avenue, roof fire.

9:25 a.m.—1093 Yates Street, fire in house.

9:35 a.m.—589 Toronto Street, chimney fire.

9:50 a.m.—Powderley Street and Dominion Road, roof fire.

11:35 a.m.—408 Alpha Terrace, house fire.

(Turn to Page 18, Col. 7)

## U.S. CREDIT TO AID FARMERS

Washington, Feb. 8.—The principle of the Hull bill designed to use \$500,000,000 of federal credit to stall off farm mortgage foreclosures for two years was approved by a United States senate banking sub-committee to-day, although several details remained to be worked out.

## REFUSES TO AID HITLER PARTY

Leading part of the opposition to the Hitler government in Germany, as the campaign for the election of March 5th warms up, is Monsignor Ludwig Kaas, above, head of the Catholic Centre party. When Hitler was forming his cabinet the Centre refused to co-operate. Hitler then was forced to appeal to the people by dissolving the Reichstag.

(Turn to Page 2, Col. 7)

## NEW ZEALAND SEEKS REVENUE

Duties on Gasoline, Sugar and Tobacco Are Raised in Budget

Minister Says Government's Income Must Be Increased; Deficit Is Big

Wellington, N.Z., Feb. 8.—Increased customs duties were approved in the House of Representatives to-day as one of several economic measures the government intends to carry out in an effort to reduce the national deficit, which is at present about £9,500,000. Introducing his budget resolutions in the House, Rt. Hon. J. G. Coates, Minister of Finance, told of the huge deficit the government faced and declared the financial stability of the dominion depended on its reduction to a safe amount.

The customs resolutions, which were adopted by a vote of forty-three to twenty-eight, include an additional tax of three pence a gallon on petrol; an export duty of twelve shillings and sixpence on wool and an increase of eightpence a pound on pipe tobacco was also listed.

**CANADA'S POSITION**

Ottawa, Feb. 8.—Decision of the New Zealand House of Representatives to raise the duties on gasoline, raw and refined sugar, and pipe tobacco will not affect Canada. Statistics of the Department of Trade and Commerce show that during the entire calendar year 1932 Canada did not export any of these commodities to New Zealand.

## EARTH SHOCKS IN GERMANY

Karlsruhe, Germany, Feb. 8.—An earthquake which began at 8:06 a.m. to-day and lasted for two minutes shook houses, threw objects to the floor and caused many living in the upper floors to leave their homes.

The quake was felt throughout Baden, especially at Rastatt, where chimneys were shaken down and shop windows demolished. The quake was the strongest since 1911.

## RANGERS AGAIN HELD TO DRAW

Replay Match With Queen's Park in Scottish Cup Football Ends in 1 to 1 Tie

Glasgow, Feb. 8.—Queen's Park to-day again held the mighty Glasgow Rangers to a 1 to 1 draw in their Scottish Cup replay, necessitating another match between the two sides to decide which will enter the third round on February 18. Hibernians, second division leaders, eliminated Aberdeen, strong first division outfit, 1 to 0, in the other replay to-day.

London, Feb. 8.—West Bromwich Albion lost to Blackburn Rovers, 3 to 1, to-day in a soccer match of the English League, first division, while Sheffield Wednesday defeated Leeds, 3 to 0, in the second division. The third division New Brighton defeated Chester, 3 to 1.

London, Feb. 8.—The Royal Navy defeated the civil service to-day in a rugby match of the English rugby union, 13 to 0.

## Beatty Argues For Merger of Railways

President of C.P.R. States His Views on Canada's Railway Future in Address Before Winnipeg Canadian Club

Winnipeg, Feb. 8.—E. W. Beatty, K.C., president of the Canadian Pacific Railway, carried his argument for unification of Canada's two big railways for management purposes a step forward in an address delivered early this afternoon before the Canadian Club of this city.

In referring to a possible sharing of earnings with the holders of Canadian National securities, he indicated he looked to some sort of partnership arrangement between the people of Canada as owners of the Canadian National and the shareholders of the Canadian Pacific, under which, while the joint railways would have the benefits of private administration, there would exist a common treasury from which there would be an equitable division of net earnings.

(Turn to Page 2, Col. 5)

## Officer Held In Tower of London

London, Feb. 8.—A sensation has been caused by the disclosure that an officer of the Seaforth Highlanders, one of Great Britain's most famous regiments, is a prisoner in the Tower of London, charged with having committed an alleged offence under the Official Secrets Act.

The War Office, announcing this, offered no further explanation, but the Official Secrets Act is applied in cases where it is suspected there has been leakage of secret information.

**DEALER WINS GAS PRICE WAR**

Vancouver Service Station Woman Gains Majority Decision of Court of Appeal

Can Examine Oil Companies For Information in Conspiracy Charges

Judgment in the gasoline price conspiracy case resulting from the charges and action of Elizabeth Patterson, Vancouver gasoline service station keeper, against the Home Oil Company and ten of the other chief oil distributors in B.C., was given by the justices of the Court of Appeal here to-day, allowing, in part, her appeal against the action of Chief Justice Morrison in the Supreme Court, throwing out the initial moves in her suit against all the companies for conspiring to force retailers to sell at their price and shut off supplies to those who would not accept dictation.

The appeal involved the ruling of Chief Justice Morrison refusing J. A. MacInnes, Mrs. Patterson's lawyer, the right to examine the oil companies for discovery evidence, along with which was involved the fact that Mrs. Patterson had not stated fully answering all the questions on the other side—the grounds of her charges against the companies. E. G. Myers, K.C., J. W. Deane, K.C., R. L. Molend, K.C., and C. G. Beaton argued the case here for the oil companies.

Mr. Justice Martin, delivering the majority judgment of the court here, said that in this case, and in the condition of the law on conspiracy, he was diffident about expressing an opinion on it in this case at this time. The principle in this case, he said, did not conform to the rule in accordance with the rule, the justice went on. "She was therefore in default as there were particulars she could not and should have delivered. She should have been alert to have given every particular within her power. But while she was in default in not having given particulars within her power, she does not deprive her of the right to the courts. We were assured during the hearing by Mr. MacInnes that the majority judgment of the court here would be in her favor."

(Turn to Page 2, Col. 4)

## SOME MINERS ARE WORKING

Situation at Anxox Better; Strikers Charged in Prince Rupert Court

Three hundred and ten striking miners at Anxox yesterday evening voted to go to work, but 200 of them are still holding out for a 50-cent a day increase and lower living costs. There have been forty objections from the company town, the Granby company, to the strike of the men out of town, according to wireless advices received at Provincial Police headquarters here.

The police stationed there now number nearly 100 and are in full control of the situation, but there has been no violence since early last Friday morning when a scuffle resulted in three constables and several miners being hurt, one of the latter receiving serious injuries to his eye and being removed to hospital at Prince Rupert.

Company officials expect the strike to terminate in a few days and anticipate no further violence.

**STRIKERS**

Prince Rupert, B.C., Feb. 8.—Five strikers from the plant of the Granby Consolidated Mining and Smelting Company at Anxox, brought here aboard the Dominion Fisheries protection vessel Malaspina, were remanded for eight days when they appeared in police court on charges of unlawful assembly. The charges were laid in connection with a clash between police and strikers last Friday at Anxox, where 1,000 men are affected by a walk-out at the Granby plant.

Police report everything quiet at Anxox.

## Flames Sweep Through Tisdale, Saskatchewan Carried By Strong Wind

## HOPES TO FLY AROUND WORLD

Preparing for a flight they hope will take them around the globe is James Mattern, above, and his partner, Bennett Griffin. They tried it last summer, but crashed in Russia. They are the first to receive a permit for such an attempt under the new United States Department of Commerce regulations on hazardous flights.

## POUND GAINS ON EXCHANGE

Exchange rates at noon to-day, as quoted by the Canadian Press, were: Pound sterling in Montreal \$4.07. United States dollar in Montreal \$1.18 1/2. Pound sterling in New York \$3.42 11-16. Canadian dollar in New York 84 1/2.

## FOUR BRITISH FLIERS KILLED

Salisbury, Eng., Feb. 8.—Four men of the Royal Air Force were killed to-day when their bombing plane crashed during a practice flight and burst into flames.

A fifth man aboard escaped with burns.

**TEACHERS MEET**

Vancouver, Feb. 8 (Canadian Press).—Emergency meetings of elementary, high school and junior high school teachers in employ of Vancouver School Board were called for this afternoon to consider what policy will be pursued regarding proposed reductions in salaries.

## Valera Is Re-elected President At First Sitting of New Dail

Vote 82 to 54; Galleries Crowded as Members of Recently Elected Assembly Start Work

Dublin, Irish Free State, Feb. 8.—Eamon de Valera, head of the Fianna Fail party, was re-elected president of the Irish Free State to-day by a vote of 82 to 54 when the new Dail Eireann convened for its first meeting.

Frank Gahy was re-elected Speaker of the House on the proposal of Mr. de Valera, who spoke in Gaelic.

Sean Moylan of Cork County nominated Mr. de Valera for re-election, expressing the hope the next time he was re-elected it would be "as President of an Irish republic of twenty-two counties."

**ULSTERIES PRESENT**

The Dail opened to-day under unprecedented circumstances, with eleven Nationalist members of the Ulster Parliament sitting in as observers in protest against the partition of the Free State and Northern Ireland.

The benches and galleries were packed, as members and spectators crowded the chamber to hear the government's exposition of its policy after being granted a comfortable majority in the recent election, which returned it and its Labor allies with a total of sixteen seats more than the opposition.

The session opened to-day is expected to see abolition of the oath of allegiance to the British crown as a requisite to public office. President Eamon de Valera and other Republican members who took the oath two days ago said indignantly they were probably taking it for the last time.

**FORGERY CHARGE**

Buffalo, N.Y., Feb. 8 (Associated Press).—Michael Mietus, forty-five, financial secretary of the Brotherhood of Railway Carmen of America, was arrested to-day on an indictment warrant charging a \$2,000 forgery. Brotherhood funds are involved.

**HIGHWAY FINES**

Hamilton, Ont., Feb. 8 (Canadian Press).—Intimation the Ontario government may establish a flat fine system for highway traffic offences was given yesterday evening by Hon. W. H. Price, Attorney-General, in an address to the Hamilton Automobile Club here.

**J. J. CORBETT IS CRITICALLY ILL**

New York, Feb. 8.—Latest advices from his sick room indicated no change in the condition of Jim Corbett to-day.

The former heavyweight champion has been gravely ill with heart trouble for eight days. His physician, Dr. G. Willard Dickie, has abandoned hope for his recovery.

## Woman Owner of Hotel and Three Daughters, Two Commercial Travelers and Maid Lose Their Lives

## Two Stores Are Reduced to Ashes

Manager of Hotel, Burned, Is Not Expected to Recover; Others Injured

Canadian Press

Tisdale, Sask., Feb. 8.—Flames swept by a stinging prairie wind early to-day swept through a hotel and two stores here and left in its wake a heap of smouldering debris in which were buried the bodies of seven persons. All were guests or employees of the Imperial Hotel and were trapped by the blaze, which ate its way through the wooden structure so rapidly would-be rescuers were unable to force their way through smoke and flames to rouse the sleepers.

A number of others escaped through windows.

The blaze broke out about 8 o'clock this morning and at 9 o'clock three buildings had been razed; the Imperial Hotel, the White and Pear grocery store and the McGrath hardware. Exhausted firefighters worked feverishly to keep the flames from the Bank of Montreal building.

**THE VICTIMS**

Those listed as having lost their lives were:

Mrs. C. Couture, aged forty-five.

Tootsie, eighteen, Simon, thirteen, and Dolly, twenty-two, her daughters.

Fraser Park, commercial traveler, Prince Albert, Sask.

Miss Emma Ray, age unknown, hotel maid.

J. C. Marsh, Saskatoon harness traveler.

Mrs. C. Couture, owner of the hotel, was an invalid; having been operated on in a Prince Albert hospital a few days ago. Dolly, her twenty-two-year-old daughter, a special nurse in Saskatoon, had been here two weeks ago to care for her mother.

Injured persons are:

"Sandy" McPherson, manager of the hotel, badly burned and not expected to live.

(Turn to Page 2, Col. 3)

## SEVEN MEN IN PIT ARE BURIED

Canadian Press

Fletcher, N.C., Feb. 8.—Seven men were buried underground of rock and earth when a rock slide copped them in a lime kiln quarry twelve miles from here to-day.

Manager Gibson, who was directing the crew, said: "There is no chance for the men to be alive."

He said it might take days to dig them out.

"The men were digging in the bottom of a 40-foot deep when the sides suddenly caved in."

## Loganberries To Be Widely Advertised

Saanich Fruitgrowers' Association Endorses Extensive Co-operative Programme

B.C. Berrygrowers to Send Special Commissioner to British Market

Canadian Press

Toronto, Feb. 8.—Cold weather to-day defeated striking pickets of the Toronto Clockmakers' Union, with no more than half a dozen hardy members patrolling the fronts of buildings where shops are located.

Police were gathered in force at every point where the strikers might have congregated, but there was no disorder.

When the strike was launched yesterday, affecting more than 2,000 clockmakers, it came as a climax to numerous threats.

**TOM MOORE SPEAKS**

"The employers have ignored honest efforts made by your committee to discuss terms," Tom Moore, president of the Trades and Labor Congress of Canada, told the clockmakers. "There is the only alternative is for you to take the step you are contemplating. In this way you may convince your employers you are in earnest and are not going to continue working under sweatshop conditions."

(Turn to Page 2, Col. 3)

## COLD JOB FOR STRIKE PICKETS

Canadian Press

Toronto, Feb. 8.—Cold weather to-day defeated striking pickets of the Toronto Clockmakers' Union, with no more than half a dozen hardy members patrolling the fronts of buildings where shops are located.

## IG CUT IN U.S. OUTLAYS PLANNED

Washington, Feb. 8.—The broadest ever granted by United States president to reorganize the government was voted yesterday by the Senate. The measure, which would save \$150,000,000 in federal expenditures for the next year, is incorporated in the House bill, which now goes to the House. It provides for the elimination of the other eight vital supply lines.

## WITNESS TELLS OF HEARING SHOT

Engineer of Yacht Carma Is Heard at W. J. Guy Trial in California

Long Beach, Cal., Feb. 8.—Cuthbert H. Guy, engineer on the vagabond adventure yacht Carma, faced cross-examination today on his testimony that he conducted William J. "Curly" Guy, "Captain" Walter Wanderwell, a few minutes before the yacht's skipper was shot to death last December 5.

## No wonder Mother is tired

There's just one telephone in the house and it's in the hallway, downstairs. So Mother has spent the day running up and down the stairway—dashing through room after room—just one sprint after another to reach the telephone.

No wonder Mother is tired.

One extension telephone or more in the house would make life so much easier for her.

**B. C. TELEPHONE COMPANY**

## LEAVES SECOND WIFE AND DAUGHTER TO RETURN HOME AFTER MEMORY LAPSE OF TWENTY-TWO YEARS

Back to his home, wife and two sons after twenty-two years of blindness—Edgar G. Allen, married, became a father and prospered—came Edgar G. Allen. He left his Ridgeview, New Jersey, home twenty-two years ago, a victim of amnesia, and settled in Knoxville, Tennessee, as Ted Morris. He married and has a daughter, Dolores, now thirteen years old. His memory suddenly returned and he is now back in Ridgeview with Mrs. Allen and his two sons. Above, left, is the Allen family at Ridgeview, at right, Allen, and below, Dolores Morris and Mrs. "Ted Morris."

## M.P.'S DEBATE SALARY CUT

Ten Per Cent Resolution Is Before Commons For Decision

Ottawa, Feb. 8.—The government took a step yesterday to cut \$8,000,000 from the national payroll for the 1933-34 fiscal year. Resolutions were introduced, prefacing submission of bills cutting 10 per cent from the seasonal indemnities of members and senators and the salaries of civil servants. It is proposed to levy an additional 10 per cent income tax against judges, Royal Canadian Mounted Police and army and navy officers.

For three hours the House discussed the resolutions which, in effect, extends for another year the salary cuts already in effect. The debate was side-tracked in the evening to make way for departmental estimates.

Five members rose from opposition benches to oppose the salary slash—J. S. Woodsworth, leader of the Co-operative Commonwealth Federation group, E. E. Cheverie, Liberal, Ottawa; Dr. J. A. Denis, Liberal, St. Denis, Montreal; William Duff, Liberal, Antigonish-Guyabro, N.S.; and J. P. Pouliot, Liberal, Temiscouata, Que.

Hon. E. N. Rhodes, Minister of Finance, piloted the resolution in the House.

"It is our need," he said, "we must ask sacrifices from the public, we could not hold up our heads if we asked everybody in Canada to make a sacrifice and did not ourselves."

Practically every country had been forced to cut its national payroll, said the Finance Minister. The United States and Australia had gone farther in that direction than Canada.

OTTAWA'S OPINION  
The salary slash was a "penny-wise, pound-foolish policy," said William Duff. He suggested closing the Washington and Tokyo legations as an economy move. "I am not cutting 10 per cent from lighthouse keepers, charwomen and page boys."

Hon. Fernand Rinfret, Liberal member for St. James, Montreal, former secretary of State and at present mayor of Montreal, said the salary cut was proper, and Mitchell F. Hepburn, member for West Essex, and leader of the Ontario Liberal party, said it was a "step in the right direction."

Macinnis, Labor, Vancouver, South, thought lower salaries should be exempt. Salaries up to \$1,000 should be exempt. The resolutions were still in committee when the House shifted to estimates.

Needle Comes Out Of Man's Scalp  
Galesburg, Mo., Feb. 8.—A needle similar to those used by surgeons came out of the head of Matt Deeren yesterday, he said, when he tried to relieve an itching scalp with a fine comb.

Eighteen years ago Deeren was operated on for intestinal adhesions. From then until three months ago he was set free. He had to retire from his farm. Four years ago he lost the sight of one eye.

Several days ago his scalp itched until he took a comb to it. The comb broke, a small lump in the scalp and out came the needle. Deeren said. He believes the needle caused all his ailments and pierced the optic nerve.

## FOUND SUPPORT WHILE CHIEF

Edgett Thanks Citizens of Vancouver on Leaving Office As Police Head

Vancouver, Feb. 8.—Col. C. E. Edgett, ex-chief of police, declared in a statement issued yesterday it was a matter of great satisfaction to him that in the events of the last few weeks he had had the endorsement and confidence of citizens of the City of Vancouver.

"Not only have I had within the last few weeks the warmest expressions of confidence from all over the city, on the part of those who stand for law and order, but throughout the whole of the time I occupied the post of chief constable of this city I had the cooperation and the support of the citizens as a whole," he said.

"If for the moment injustice prevails, it is a consolation to know it does not do so with the approval of the vast majority of the people of Vancouver."

POST-SOUGHT MAN  
"The post of chief constable sought me. I did not seek it. I was happily situated indeed in 1931 with a worthwhile work on my hands as warden of the penitentiary at New Westminister. Quite unexpectedly in November of that year the acting mayor of the city, Alderman John Bennett, came to me at the penitentiary and sought my services as chief constable."

"I intuited I had no desire to make a change, but the acting mayor was very insistent. He told me the commission wanted someone to thoroughly reorganize the police force and to prepare the way for a metropolitan police force for the greater Vancouver area. Alderman Bennett intimated the minimum salary would be \$7,500, and that as the metropolitan force was established the salary would be increased."

On Monday afternoon the police commission of Vancouver dismissed Col. Edgett as chief, voting him one month's salary in lieu of notice. He had been under suspension by Mayor Taylor for twelve days.

OFFICERS CHOSEN BY ENGINEERS  
Canadian Institute Hears Hon. R. J. Manion at Convention in Ottawa

Ottawa, Feb. 8.—Dr. Oliver Lefebvre of Montreal was elected president of the Engineering Institute of Canada, at yesterday's session of the annual meeting here. He succeeds Dr. Charles Smith, Deputy Minister of the Federal Department of Mines. R. L. Wilson, Edmonton, was elected a vice-president.

The following are among the councillors elected: G. H. Burbridge, Port Arthur, Ont.; J. B. De Hart, Lethbridge, Alta.; J. C. Green, Victoria, B.C.; D. A. R. MacCannell, Regina; H. J. Macleod, Edmonton; J. W. Porter, Winnipeg; A. W. Wootton, Vancouver.

MANION SPEAKS  
Human beings are more important than machines, and it is certainly unfair that in times of depression, when plants close down the machinery should be taken care of while the human element is thrown on the street.

Hon. R. J. Manion, Minister of Railways and Canals, told the institute. He urged the engineering profession should turn its attention to finding a solution of the problem of unemployment which had come through the increasing use of labor-saving machinery.

## Judge Called On To Pay Income Tax

Ottawa, Feb. 8.—Although expressing some doubt as to his competence, Judge E. J. Daly of the County Court of Carleton yesterday gave judgment against Mr. L. A. Cannon of the Supreme Court of Canada, holding the judge's salary was subject to income tax imposed by the City of Ottawa.

## FAVOR PORTS OF DOMINION

Senators Call For C.N.R. to Ship Goods From Canadian Docks If Option Is Given

Ottawa, Feb. 8.—The Senate railway committee yesterday set the stamp of its approval on the policy of moving Canadian goods for export over Canadian railways to Canadian seaports. More than a mere declaration of principle, the Senate committee, by inserting an amendment in the present railway bill, gave a specific direction to the trustees of the Canadian National Railways, that, unless a shipper should indicate otherwise, goods consigned within Canada for carriage by the Canadian National and intended for export must be so exported out of Canadian ports.

This, in the opinion of Rt. Hon. Arthur Meighen, government party leader, went to the full limit of the demands sought by the delegates from the Maritime Provinces who had appeared before the Senate committee. Such a course was in line with Canadian policy. It had been included in the agreement under which the transcontinental railway was constructed.

HAS POWER  
Parliament had not the authority to enact such a provision in relation to the Canadian Pacific, but had the power to do so for the government-owned road, said Senator Meighen.

Senator W. H. Dennis, Halifax, asked what protection the Maritime ports would have if a shipper should specify that his goods should be shipped through Buffalo.

If a shipper specified his goods were to be sent through any Atlantic port—say, Portland, Maine—then it would have to go through there, Mr. Meighen said.

"It has never been accepted in Canada that you can limit a shipper as to the manner in which he can get his goods to the market," the government party leader declared.

Even at some sacrifice Canadians had always acknowledged the east and west principle of tradition and history, he said. Parliament had no power to interfere with a shipper, but it could say to the railways that unless the shipper desired otherwise his goods should be shipped in the manner indicated.

The Senate committee continued its analysis of the bill to-day.

MOTOR COMPETITION  
Senator Meighen said subsidiary forms of transportation must not be allowed to put the railways out of business. The railways were indispensable and the lesser utility must yield to the more important one.

The question arose when Senator J. H. King, Liberal, British Columbia, proposed a conference between the provincial governments, the Dominion, the railways and representatives of the newer forms of transportation to work out plans which would permit of the proper development of motor transport and prevent unfair competition with the railways.

Sensor Meighen said the matter had already been studied at an inter-provincial conference and discussions arising out of the last conference were still being carried on. In view of the importance of the question, however, he would approve of the appointment of a special committee of the Senate to look into it.

The matter was left to be taken up again to-day.

ROBBERS HUNTED IN MONTREAL  
Montreal, Feb. 8.—Three hold-up men were richer to-day by \$8,000 and Armand Renaud, twenty-five, bank teller, was suffering from a bullet wound in his right hand as a result of the hold-up late to-day of the Beaudin Street branch of La Banque Canadienne Nationale.

The robbery was the crest of a multi-crime wave which swept the city during the afternoon. While a large detachment of detectives were investigating the bank robbery, a department store messenger was held up and relieved of a quantity of cheques and bank books he was carrying from a bank to store officials. Almost simultaneously a lone gunman entered a Fine Avenue butcher shop and forced the proprietor to hand over all available cash—\$12.

Pyramid of Butter  
Toronto, Feb. 8 (Canadian Press).—A 9,434-pound pyramid of butter, all the manner in which he can get his goods to the market," the government party leader declared.

Even at some sacrifice Canadians had always acknowledged the east and west principle of tradition and history, he said. Parliament had no power to interfere with a shipper, but it could say to the railways that unless the shipper desired otherwise his goods should be shipped in the manner indicated.

## CONCILIATION STATED FAILURE

Suit of W. T. R. Preston Against P. D. Ross Heard in Toronto

Toronto, Feb. 8.—"I think you will find we tried to conciliate Mr. Preston and always have done so. It is not easy to conciliate him, however," declared O. P. Henderson, K.C., during yesterday's session of the trial of the \$20,000 action of W. T. R. Preston, Port Hope, Ont., alleging libel by P. D. Ross, Ottawa, author of "Retrospects of a Newspaper Person," and the Oxford University Press, Toronto.

Mr. Preston, former commissioner of immigration and former Ontario Liberal organizer, complains certain passages in Mr. Ross's book reflect on his character.

"Mr. Preston has been in trouble all right the world," said Henderson. "He had a libel action in Japan and he had trouble in South Africa. It is common knowledge Mr. Preston is a stamp-collector. He is of the opinion he is 100 per cent right and everyone else wrong."

## TORONTO WRITER IS FOR INFLATION

Kindergarten, Ont. Feb. 8.—"I don't know of a single responsible economist who doesn't agree inflation is inevitable," said J. C. Heave, contributor to the Toronto weekly Saturday Night, and other publications, in addressing North Bruce farmers here yesterday evening. He advocated abolition of the gold standard and nationalization of life insurance companies, and also urged the formation of a central bank, a public utilities corporation which, he said, must be created before inflation was undertaken.

## NO PROSPECTS OF ANY RAILWAY AMALGAMATION

Reports from Ottawa indicate very slim prospects for the success of the big drive under way for the amalgamation of the two major transportation systems of Canada. A few days ago the railway committee of the Senate, by a vote of 24 to 1, rejected the Beatty proposals and decided to proceed with the programme of the Duff Commission for co-operation between the C.P.R. and C.N.R. Rt. Hon. Arthur Meighen, government leader in the Senate, came out strongly against the amalgamation scheme, an attitude which itself indicates that the administration is against it. As the Liberal Party has definitely pledged its opposition to amalgamation, and the Independents always have recorded themselves against it, it is plain that there is not much support for the proposal in Parliament. While Parliament, of course, is not bound to adopt all of the recommendations of the Duff Commission, it would make a sorry exhibition of itself in the eyes of the country if it ignored the sense of the Commission's findings in the aspects proposed by Mr. Beatty.

The appointment of the Duff Commission was urged by the executives of both of the transportation systems, who expressed hearty approval of the personnel, when it was announced. Of the character and ability of the members of that body there could be no question. The chairman was Mr. Justice Duff, of the Supreme Court of Canada, well-known in Victoria, where he resided and practiced his profession for many years, and highly regarded throughout the empire as a jurist. Lord Ashfield, an outstanding railroad leader in London, was one of the commissioners. Mr. L. F. Loree, head of a great combination of United States railroads and perhaps the most outstanding railroad executive in that country—which operates half of the railroad mileage of the world—was another member of the board. Sir Joseph Flavelle, well-known in industrial and financial circles in Canada; Mr. Beaudry Leman, prominent Montreal engineer; Dr. Walter C. Murray, head of the University of Saskatchewan, and Dr. John C. Webster, of New Brunswick, completed the commission.

This body, after a thorough investigation of the railroad situation in Canada, submitted a voluminous report in which it recommended certain measures for the solution of our transportation problems. On the subject of the amalgamation of the two major systems it was emphatic; declared that this was not possible, and proposed as an alternative an arbitral board which would enforce upon both systems co-operation in policies and operations. The recommendation of an arbitral board was not favorably received by either side, and the consideration of Mr. Meighen's bill in the Senate implementing the findings of the Duff Commission was deferred pending the discovery of some medium which would be more palatable to the railroad interests.

But this did not imply that there was any general acceptance of the idea that the Canadian National Railways should be handed over to the C.P.R. and the Canadian taxpayers continuing to assume the liabilities of the national system. Of that, or any other form of unification under private auspices, there is not the slightest prospect, and as we have repeatedly pointed out, it is astonishing that such a proposal should emanate from any responsible quarter. On that point the Duff Commission realized, very properly, that any attempt to subordinate the Canadian people, their institutions and industries, to the control of a few gentlemen in Montreal—be they ever so patriotic or enlightened—would destroy the structure of this country. In such circumstances that oligarchy could dictate to governments, parliaments and legislatures, appoint railway commissions, judges and what not; in short, it would be able to boss the entire country. And that, bluntly put, would mean revolution. If anybody doubts the soundness of these implications all he needs to do is to go to Ottawa and watch the operation of skilled, private, highly-paid lobbyists when major issues of this kind are before the House.

Nor is unification of the transportation systems—the polite term for an unexampled monopoly—necessary to the alleviation of the burden of our railroad problem, which, by the way, arose in the first place from the collapse of privately organized, constructed and operated railroad projects, which had to be taken over by the taxpayers of the country because they had guaranteed their bonds so heavily. According to Mr. S. G. Hungerford, acting-president of the Canadian National Railways and for forty years a railroadman in Canada, whose experience covers every aspect of this calling from laborer to high executive and who spent a great part of that time in the employ of the C.P.R., such economies and improvements as are necessary can be adopted with the two systems operating separately, as effectively as they could be under any scheme of unification. Mr. Hungerford could have added with absolute truth that amalgamation would prove even more costly than independent operation in consequence of the inevitable reactions and exactions against monopoly on the part of the Canadian people.

**MORE HASTE, LESS SPEED WITH B.C. LEGISLATION**

Scarcely a year passes without the rejection by the courts of this province of provincial legislation of various kinds. Invariably these decisions have been appealed to the Privy Council, where in many cases they have been sustained. This is a costly process to the taxpayers, and as it frequently arises

from the practice of rushing ill-considered, half-baked measures through the House, often in the final stages of the legislative session, there is little, if any, excuse for it.

Yesterday the Fuel Oil Tax was thrown out by Chief Justice Morrison on the ground that it was an excise tax, which is something the province has no power to enact. The case will be appealed to the Privy Council, where it may meet with a similar fate. The original fuel oil tax measure was rejected by the Privy Council some years ago, and the law which was thrown out yesterday was designed technically to supply the constitutional deficiencies of the original act.

The record shows that in dealing with cases which have to do with the delimitation of legislative powers between the Dominion and the provinces, the courts are less concerned with purely technical considerations than with broad principles; more with the spirit, intent and effect of measures than with their letter. Evasive verbal technicalities and subtleties may impress the members of the House, but they avail nothing in the courts, particularly before the Privy Council where they are almost entirely ignored, which in plain English means that they do not fool the judges.

In these times, various governments in their zeal to impose new taxation are disposed to take long chances on the constitutionality of the legislation under which these levies are made. But they overlook the inconvenient fact that it always is open to the taxpayers to have their authority determined by the courts. There are several taxation laws in operation in British Columbia concerning the constitutionality of which, in varying degrees, there is grave doubt. Some of them, which are very prolific of revenue, almost certainly would be declared unconstitutional if they were challenged at law. This circumstance, together with the record of legislation rejected with almost monotonous regularity by the courts of this province and the Privy Council, should impel our government to exercise unusual care in preparing its programme of legislation, and should impress the Legislature itself with the necessity of scrutinizing closely and intelligently all important measures submitted to it.

## YOUTH—AND THIS CHANGING WORLD

When President-elect Roosevelt remarked, in a recent after-dinner speech in New York, on "the unequal contest between youth and progress," he summed up in a few words a matter that has been bothering parents and educators for a long time.

What Mr. Roosevelt was getting at, of course, was the way in which the attractions and distractions of a rapidly moving world operate to tear young people away from their moorings. It is not exactly a new spectacle; it has been going on for several decades. But it does contain a problem which we have hardly begun to solve, and in it are the sources of a whole multitude of tragedies.

It seems sometimes as if the world as a whole had suddenly tripled its pace in the past generation. It has equipped itself with such devices as automobiles, movies, airplanes, radios and the like; and all these, acting in competition with home and church and school, have held out to youth a lure that is both stimulating and dangerous.

The youngster coming of age these days faces a different set-up than his father faced. Life beckons him from a thousand angles, just as it always has beckoned to youth; but the world now offers him an almost infinite number of channels into which he can pour his fresh young energy. It tries to pull him away from his old foundations; it makes it pitifully easy for him to cut loose from all the old ties and set out on his own.

All this causes a great many shipwrecks. And yet, as Mr. Roosevelt remarks, we can not stop it. It is part of progress, and we can not isolate our young folk against it. The world has changed, and there is no conceivable way in which we can set the clock back.

What we can do is to get a new appreciation of the problem involved; a new sympathy and understanding for the strange compulsions and dark confusions which blind progress is putting upon youth.

## WHAT OTHER PAPERS SAY

AN EFFECTIVE PIECE OF WORK  
 The Regina Leader

Senator Arthur Meighen appears to have made an effective job of killing the railway amalgamation plan when the matter came before the Senate on Thursday. It has been known that quite a number of Senators, both Conservative and Liberal, would have been content to have seen the Canadian National Railways sent to the block, and Senator Meighen would know, of course, that a drive in favor of amalgamation was being made by some of the most influential financial men in the country, including many closely associated with his own party, yet he plunged forward in the expression of a viewpoint that was straight and to the point.

Mr. Meighen deserves the thanks of those in the country who believe a railway monopoly would not be in the best interests of the future of Canada.

"IT CAN'T BE DONE"  
 The Winnipeg Tribune

Reading and studying Mr. Beatty's address before the Canadian Club at Toronto, the people of Canada will only be confirmed in their opinion that amalgamation of the railways is a last resort, to be undertaken only under conditions of dire necessity that have not yet arisen and are altogether unlikely to arise. Amalgamation even in Mr. Beatty's presentation of it is a panic policy. The Canadian people are not panic-stricken. They have faith in Canada and they feel perfectly sure also that Mr. Beatty has faith in Canada. Many of them will venture to doubt if his outlook on the future of the Dominion is as dark as he pictures it. If it were, the private company would not want the Canadian National system even as a gift. From that aspect the case was overstated.

## A THOUGHT

For, lo, he that formeth the mountains, and createth the wind, and declareth unto man what is his thought, that maketh the morning darkness, and treadeth upon the high places of the earth, The Lord, The God of hosts, is his name—Amos iv 13.  
 God is with the patient—Koran.

## Loose Ends

Professor Bryant tries to pull us to pieces and find what makes us tick—we are labeled and distorted—the barbarians surge onwards and threaten to engulf us—a great institution is closed—and even our ham and eggs are gone.

By H. B. W.

## BARBARIAN

A GENTLEMAN named E. B. Bryant, rushing in with a barbaric whoop where angels and I fear to tread, has undertaken to explain Victoria to Vancouver. In a long, philosophical article published in The Province, Mr. Bryant attempts to strip the soul of Victoria clean, to reveal its innermost mental processes and the workings of its spirit to butcher us, in fact, to make a Mainland holiday. Of course, he fails utterly, as you would expect. Even I fail when trying to explain Victoria. Like all the great works of nature, it is inexplicable. There are some things hidden from mortals.

MR. BRYANT first goes through the list of characteristics which he supposed to distinguish Victoria from Vancouver and dismisses them all with a flourish. It is not true that Victoria is more snobbish than Vancouver—they are equal in snobbishness. "Nor does the boasted quality of Victorian living which sceptical Vancouverites might call dying—have anything to do with it." (In this sentence the clever Mr. Bryant makes the dead walk and talk as well as live.) Victoria's climate, per capita wealth, retired or active colonels and allegedly old-world atmosphere have no bearing on the case either. Then he adds this bland insult: "Is there some secret of life at the southern end of the island? Perhaps some slight which can make the dead walk and talk as well as live?" Victoria is like all the most human beings; a necrotic substance which affects all those that come in contact, producing prolongation of apparent vitality? No, it is none of these things, nor the difference in climate, nor Victoria's habit of hanging on to its money while Vancouver is out making more. It is something deeper, vaster, more fundamental—a gulf which no Seymour Narrows Bridge can ever span. The answer, says Professor Bryant, is that "Victoria is just a small town after all."

## SMALL TOWNS

WELL, what would you expect from Vancouver? Now, of course just the opposite is the truth, but Vancouver will never understand it. I doubt, indeed, that it is worth while to explain to Vancouver that it is the small town and Victoria the large one; that towns must be measured not by their population, their hold-ups or their police force, but rather by their intellectual power and intelligence, but rather by their outlook on life. And so measured, nearly all the large cities of America have proved in the last four years to be small towns after all. Only a few small towns like Victoria have proved large. Dr. Bryant, in boasting that Vancouver is like all the other large towns, has fallen into his own trap. Precisely. Vancouver is like all the other large towns and they are all small towns in the mind, no matter how many glittering skyscrapers and ragged unemployed they may have.

OBVIOUSLY the mark of the small town is uniformity, regimentation, a striving to look like all other teeming small towns. Well, Vancouver succeeded. It is in every other fast-growing young city—same skyscrapers, same surging wilderness, of stucco bungalows identical in design; same bustle and clamor, same assurance in 1929 that it would have a million people in five more years; same conviction now that civilization has broken down because it only has half that many; same jolly, back-slapping certainty that it is immune from the ordinary laws of economics; same splendid ignorance of what it is all about. And I like it. It is the kind of thing that most of us were made for; but it is small-town. It is the small-town spirit double-distilled.

## SIDE GLANCES

By George Clark

"Baxter, I think the chauffeur was hurt when you didn't notice we had a new car."

## Twenty-five Years Ago To-day

THE VICTORIA DAILY TIMES  
 OF FEBRUARY 8, 1908  
 (From The Times Files)

Weather Forecast—Victoria and vicinity: Light or moderate winds, partly cloudy, with occasional rain.

There is a growing feeling which more prominently to the attention of citizens that a broad comprehensive scheme of beautifying in connection with Victoria must be carried out. The city is the capital of the province, with the most equable climate in Canada and is destined to become from year to year more important as a tourist centre and more attractive to the seeker of a nidal place of residence.

Lisbon, Feb. 8.—The funeral services over the bodies of the king and his son Luis, Crown Prince of Portugal who were shot to death a week ago in this city, were held in the church of St. Vincent early this afternoon.

A very large and intensely interested gathering of sportsmen was held last evening in the Driand Hotel for the purpose of discussing the question of game protection. So large was the crowd that many were unable to obtain seats and accordingly stood for three hours and watched the greatest enthusiasm.

The greatest of the big concerts being given under the auspices of the Victoria Musical Society will take place on Friday next, February 14, when the great Paderewski, the Polish pianist, will appear here.

## Other People's Views

Letters addressed to the Editor and intended for publication must be short and legibly written on one side of paper only. The longer an article the shorter the chance of insertion.

All communications must bear the name and address of the writer, but not for publication unless the writer wishes.

The publication or rejection of articles is a matter entirely in the discretion of the Editor.

No responsibility is assumed by the paper for the preservation or return to the writers of communications submitted to the Editor.

Letters which do not conform to the above conditions will not be used.

## CEDAR HILL ROAD

To the Editor—May I, on behalf of many others, give a criticism? The extreme irregularity of a certain piece of the Cedar Hill Road located between Lang and Doncaster Street, has created a positive inconvenience to those who use this part of the road extensively. If this were looked into, the facts would bear out this complaint.

OBSERVER.

Cedar Hill Post Office, Saanich, Victoria, February 6, 1933.

## TELEPHONE RATES

To the Editor—Would it not be quite in order and keeping with all other commodities if the B.C. Telephone Company would consider reducing the monthly rate back to the old price of \$2.00 a month that prevailed some years ago. All commodities are being reduced during these times of depression, and if that twenty cents a month were taken off the bills it would materially help those of us whose incomes are very limited.

HELEN B. DAVIS.

Inverness Street, Saanich, February 6, 1933.

## BOYCOTT

To the Editor—Named from Captain Boycott of Lough Mask House in Mayo, Ireland agent in 1880 to Lord Burre, an Irish nobleman. The agent gave offence about agrarian matters to the people among whom he lived during the land agitation of 1880-81, when he was boycotted by the people. No one would gather in his crops. The case was reported in the press, and about sixty Orangemen, belonging to the north of Ireland, organized themselves into a "Boycott Relief Expedition," and, assisted by the government, the crops were gathered in. This is the correct story.

SCOTTIE.

## OXFORD GROUP MOVEMENT

To the Editor—As so many people are anxious to know what the Oxford Group teaching is, I thought the following extract from a letter from a clergyman in Toronto, who attended almost all the group meetings held there, would be of general interest. "You ask me just what exactly is Dr. Buchman's teaching. I too, wondered what it was, and 'For Sinners Only' gives one little inkling of what their teaching or 'Theology' is. After carefully studying it, I made it out to be as follows: In every man there is so Dr. Buchman says, a 'piece of divinity' (i.e., the Greek philosophers called this divine spark) and this piece of divinity is forever reaching out after God. The best way to cultivate it is to listen to the voice of God within one, and in doing this daily, we shall in time become 'Christ' ourselves. Whether one believes in an historic Jesus or not, does not matter, so Dr. Buchman says. All that matters is whether we have within us a spark of divinity in our lives. The Cross, the Incarnation, the Atonement, and the Resurrection, must all be explained to the modern man, symbolically. Mr. Shoe-maker, Dr. Buchman's teaching, brings this out admirably in his sermons, 'The Cross in Human Experience.'

## Family Dental Service!

DENTISTRY for the whole family for ONE year for ONE small fee. Flossing, fillings, extractions, everything included. Get particulars to-day.

**Dr. Coultas**  
 1309 Douglas Street

The Atonement and the Resurrection may have been historic events, says Dr. Buchman, but apply them personally—the at-one-ment with God, of each of us—the resurrection of a new man, after we have been born again spiritually, and the modern man will have no difficulty in believing in the Atonement. New teaching for new days, says Dr. Buchman, and yet there is nothing new in this teaching. It is the teaching of Socrates and Plato, of Christendom, and is largely taught by Theosophists and New Thought sects. "AN ANGLICAN."

Feb. 4, 1933.

## THE DURANT LECTURE

To the Editor—Russia being very much to the fore at the moment (thanks to Mr. Will Durant) the following information may be of interest to some of your readers. It was given to me by a professor of sociology who visited that much abused country at the same period as Mr. Durant. The gentleman went to Russia in the interest of penology, and is largely taught by Theosophists and New Thought sects. "AN ANGLICAN."

## A woman's trouble

ALL women at some period of their lives need a strengthening tonic. Read what Mrs. Elizabeth Sellers of 41 Bishop St., Toronto, says: "I suffered from woman's trouble following childbirth and my nerves were very bad. I had an awful pain on the top of my head and a dragging pain in my back. There were days that I just had to drag myself around. I did not rest well at night, could hardly eat a thing, and my complexion became very sallow. I used four bottles of Dr. Pierce's Favorite Prescription and it put me right back on my feet. I feel better in every way. My appetite improved, the pain in my head and that heavy ache in my back disappeared."

ADVE.

## Telephone Bridge At Port Alberni

Port Alberni, Feb. 8. — Under the auspices of the Canadian Daughters' League a series of telephone bridge was held on Monday evening when the following hostesses loaned their homes for the purpose: Mrs. J. G. Westmiller, Mrs. C. A. Manning, Mrs. Jack Warren, Mrs. G. H. Donnelly, Mrs. S. Meeson and Miss Elaine Smith. Mrs. Westmiller entertained with five tables, the guests including Mr. and Mrs. W. Horton, Mr. and Mrs. H. B. Blair, Mrs. C. Stone, Mrs. G. Sinclair, Mrs. A. A. Rhodes, Mrs. J. Warner, Mrs. Ralph Evans, Mrs. E. Herbert, Mrs. Colin Martin, Mrs. O. Manuel, Mrs. B. L. Dixon, Mrs. Walter Harris, Mrs. T. Marshall, Mrs. G. McCarrigle, Messrs. E. Rhodes, C. Drummond, J. Whitehead, W. Dunsmuir, Cecil Dixon and Sidney Croll. Entertaining with three tables, Mrs. Donnelly's guests were: Mr. and Mrs. C. A. Manning, Mr. and Mrs. C. Cook, Mrs. Ray Tyler, Mrs. L. Hancock, Mrs. L. Haglund, Mrs. J. Evendoff, Mrs. H. Ford, Mrs. M. E. Paul, Miss Verna Donnelly and G. H. Donnelly. Mrs. Manning's guests were: Mr. and Mrs. John Williamson, Mrs. F. Vradenburg, Mrs. Eric Hilbert, Misses Christina Mair, Ethel Manning, Bernice and Kate Manning, George Williamson, Len Robinson, Howard Manning and Charles Buzzard. Entertaining with three tables, Mrs. J. Warren's guests included Mr. and Mrs. A. Taylor, Mr. and Mrs. W. C. Hamly, Miss Dennis O'Brien, Mrs. W. H. Crowe, Miss Evelyn Warren, Messrs. Will Jones, Ed Brentnall, L. Hambrook, Jack Warren and Harold Warren. Miss Elaine Smith, who entertained with three tables at the home of her parents, had as her guests Mr. and Mrs. J. Foster, Mr. and Mrs. P. Herbertson, Mr. and Mrs. P. Sawyer, Miss Ella Herbertson, Miss Doris Paul, J. Clark, Fred Lindsay and Neil McLeod. Mr. and Mrs. S. Meeson had as guests: Mr. and Mrs. J. Mowat. Prizes for high score were won by Mrs. W. C. Hamly and Mrs. W. H. Crowshaw, at the home of Mrs. Jack Warren.

Miss Dorothy Proctor was a bridge hostess on Friday evening at the home of her parents when she entertained with three tables in play. Prizes for high score were won by Miss Lucy Clegg and Mr. Frank Clegg, while consolation were secured by Mrs. David Clegg and Mr. D. Dootson. The invited guests included Mr. and Mrs. Reese Riley of California, Mr. and Mrs. David Clegg, Miss Jean Wilkinson, Miss Lucy Clegg, Miss Mary Young, Miss Lilah Smith, Miss Eva Clegg, Messrs. John Bohle, Dave Dootson and Frank Clegg.

Miss Evelyn Hanes of the teaching staff of the Alberni District High School was a hostess at the tea-hour Saturday when Miss Gertrude Hillis presided at the urns. The guests included Miss Alberta Hobson, Miss Mary Wood, Miss Lilah Smith, Miss Florence Noble, Miss Christine McKenzie, Miss Margaret Burde, Miss Ada Bailey and Miss Marjory Brown.

First aid classes were held Sunday at the Community Hall, Dr. W. H. Higgs was the instructor. Dr. W. H. Higgs will be in charge next Sunday.

## CRAFTSMEN TO EXHIBIT WORK

Victoria Co-operative Welfare Craftsman's Association Formed

Object to Protect Property Owners As Well As Supply Houses

With the object of creating work for skilled artisans an organization known as the Victoria and District Co-operative Welfare Craftsman's Association has just been incorporated here.

H. Jardine, manager of the new association, announces that an exhibit of craftsmen's work will shortly be held in the building at the northwest corner of Broad and Broughton Streets through the courtesy of David Spencer Limited.

The exhibit will be a diversified one, displaying the finest workmanship, embracing interior woodwork such as staircases, bannisters, paneling, masonry, plumbing, in fact, everything that goes into modern construction will be exhibited by these master craftsmen.

**PROTECTION GUARANTEED**  
The Victoria and District Co-operative Welfare Craftsman's Association, states Mr. Jardine, has been formed primarily to protect the owners of property by guaranteeing the highest class of workmanship by its members and to protect material supply houses advancing credit to the members of the organization. Firms supplying building materials to the craftsmen will be guaranteed payment by the association. The association is a non-profit-making organization and no salaries will be paid out to its officials.

**WORK SUPERVISED**  
Anyone requiring work done, from a minor repair job to the building of a house or store, will place the work through the medium of the association, which will give estimates, assign fully qualified workmen to the job, supervise the work and conduct all financial transactions.

Over thirty craftsmen experienced in all branches of the building trade, such as carpenters, joiners, bricklayers, plasterers, plumbers and painters, have become members of the association.

The co-operation of property owners in Victoria and district is looked for, states Mr. Jardine, to give impetus to the new venture.

Mr. Jardine stated, the Chinese wanted to control their own missions to the complete exclusion of the foreigner under the "China for the Chinese" policy, and they have since come to an understanding whereby they can carry on their work with the co-operation of the foreign mission organizations. The Chinese are now contributing money towards the maintenance of the missions, and consequently, less financial support is necessary from the missionary societies.

Mr. Griffin has been in China for twenty-eight years and has witnessed the evolution of the country since the Manchurian regime. He saw the pig-stick disappear for government control in 1911 and in recent years he has experienced numerous brushes with communist brigades.

He has been located at Kiating in Kwantung Province, which he says is comparatively quiet at the moment.

There is always danger of raids from Kiangsi, lying immediately to the north, the most communist province in the whole of China. When banditry is in vogue, frequent parties are made from the north and missionaries have suffered when taken captive and held for ransom. Mr. Griffin narrowly escaped capture on one occasion in Kwantung. He happened to be away from the mission when three missionaries were taken and a ransom of 2,000,000, Mex demanded.

The Chinese as a whole, he says, are a peaceful people, and liberal in the extreme. If left alone they are quite capable of working out their own salvation, states Mr. Griffin.

## RHEUMATISM?

Neuritis? Neuralgia? T-R-C's bring two people relief. Mrs. S. Johnson, Stollerton, N.S., writes: "For 20 years I have been bothered with Rheumatism till told about T-R-C's. I wouldn't be without them. A neighbour got them for his wife. She has Rheumatism in her arms. T-R-C's did her good. Equally good for Neuritis, Lumbago, Sciatica, Neuralgia. No harmful drugs. 50c and \$1 everywhere."

You owe it to yourself to try T-R-C's TEMPLETON'S RHEUMATIC CAPSULES

use of the unemployed men of the district, garden allotments will be made. Up to date, eighteen men have applied. Tools, seed potatoes and seeds will be gratefully received.

A class for making waxflowers, leather work, etc., will be held at the home of Mrs. C. A. McFee, 634 Admirals Road, on Wednesday next, at 2:15 o'clock. On the following Wednesday, Miss Drury has kindly consented to give a demonstration of paper flowers at 649 Admirals Road. A home cooking stall will be held at the store of David Spencer Ltd. by their kind permission on March 18.

A vote of thanks was sent to Jack Irving for writing posters for the district.

After the meeting, a musical programme was enjoyed, including songs by Mrs. Petri, Lady Emily Walker, Messrs. Craven and Walker, and violin solos by Mr. Donald Wood. Refreshments brought a most enjoyable evening to a close.

## GET CONTROL OF MISSIONS

Chinese Working With Co-operation of Foreign Missionaries, Says J. H. Griffin

Control of Christian missions established by foreign missionary societies in China is gradually being taken over by the Chinese and they are making a good job of it, according to J. Harry Griffin of the American Baptist Foreign Missionary Society, who reached Victoria yesterday aboard the Ss. President Cleveland from Shanghai.

As far back as 1925, Mr. Griffin stated, the Chinese wanted to control their own missions to the complete exclusion of the foreigner under the "China for the Chinese" policy, and they have since come to an understanding whereby they can carry on their work with the co-operation of the foreign mission organizations. The Chinese are now contributing money towards the maintenance of the missions, and consequently, less financial support is necessary from the missionary societies.

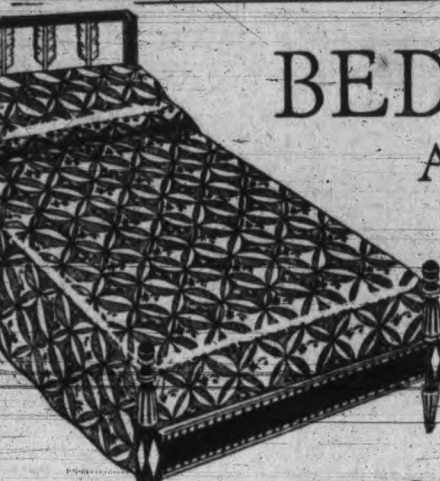

Mr. Griffin has been in China for twenty-eight years and has witnessed the evolution of the country since the Manchurian regime. He saw the pig-stick disappear for government control in 1911 and in recent years he has experienced numerous brushes with communist brigades.

He has been located at Kiating in Kwantung Province, which he says is comparatively quiet at the moment.

There is always danger of raids from Kiangsi, lying immediately to the north, the most communist province in the whole of China. When banditry is in vogue, frequent parties are made from the north and missionaries have suffered when taken captive and held for ransom. Mr. Griffin narrowly escaped capture on one occasion in Kwantung. He happened to be away from the mission when three missionaries were taken and a ransom of 2,000,000, Mex demanded.

The Chinese as a whole, he says, are a peaceful people, and liberal in the extreme. If left alone they are quite capable of working out their own salvation, states Mr. Griffin.

## FIRM MOVES TO NEW QUARTERS

Pritchard and Son Occupies Handsome New Premises on Government Street

Handsome new quarters at 1229-31 Government Street, near the southeast corner of Yates Street, have been occupied by Pritchard and Son, popular firm of men's clothiers.

Formerly located at 1321 Government Street, the firm is now quartered in thoroughly modern new premises. Two smaller stores have been made into one, completely remodeled and redecorated to take care of the growing business.

Pritchard and Son have enjoyed noteworthy success since the firm started in business here two years ago. Having purchased the business of McCandless Bros.

In its new location the firm is ready for the spring business with a new stock of merchandise.

"The success of this business," said Mr. W. J. Pritchard, yesterday, "is owing largely to the fact that the public is assured of getting the standard article here at a reasonable price. We appreciate the generous patronage Victorians have accorded us and are resolved to spare no effort to maintain our reputation for good service to our customers."

## Alberni

Mr. and Mrs. E. E. Frost were dinner guests at their home Monday evening for Dr. J. C. Thomas and Serg. F. Markland. Extra covers were laid for Mr. and Mrs. John Perry of Great Central Lake.

In compliment to birthday honors a surprise party of friends called at the home of Miss Lilah and Alec McKenzie Friday evening. The self-invited guests who provided an entertaining evening were: Mrs. R. McMinn, Misses Flora McMinn, Dorothy Adams, Elizabeth Prescott, Gladys Olson, Jessie McMinn, Rhylla Todd, Evelyn Stephens, David Cooke, John Prescott, Peter Ramsey, Charlie Randall, Leonard Randall and Richard McMinn.

## JOHN JACOB ASTOR AND FIANCEE

Spring is expected to bring the wedding of John Jacob Astor III, twenty, descendant of the wealthy United States family, to Miss Christina Forlani, She is an Italian-American, daughter of the Duke of Turin, and the former duchess, who was Ede. Moore, a Brooklyn girl of wealthy family. Astor is son of the late Col. John Jacob Astor, whose life was lost when the Titanic went down. The boy was born some months after his father's death.

## Y.W.C.A. ACCOMPLISHES MUCH IN SPITE OF LOWER REVENUE

Annual Report Shows Operating Loss; Jobless Girls Cared For

Mrs. R. W. McClung Speaks of Need of Educational Work To-day

A year of valuable work for the young womanhood of the city, particularly among girls who have been out of employment, was recorded by the Y.W.C.A. in its annual report presented yesterday evening. Although the financial statement revealed a deficit of about \$500, the comparatively slight material loss was more than compensated for by the accomplishment in enhancing the spiritual and physical welfare of the young people who come within the institution's purview, the various department reports made apparent.

REVENUE REDUCED

Mrs. Arthur Walsh presided at the gathering which took the form of a supper meeting. In her review of the year's work she noted:

"This year the usual sources of revenue have been very materially affected. Rooms and board have necessarily been considerably reduced to meet the lower salaries of girls and also the rates of hotels, boarding houses and restaurants. We have been faced with the problem of the unemployed girl and how to help her keep up her morale while making every effort to find her employment. A large part of the year we have had in the main building as few as eight or nine permanent girls, with four or five of these without enough money to work to help support themselves. Transients too, have fallen off, due to greatly reduced travel. It has been a most trying and difficult situation. The girls had to be cared for and as directors, had to find ways and means of raising funds to make up at least part of the losses thus entailed. I must confess it has been a serious question with many of us just how long we could or should carry a girl without doing that girl harm, that is making her less self-reliant."

Reference was made to the special efforts made to raise funds, including the very successful pageant, a donation of \$500 from the Provincial Government, and \$700 rebate on taxes from the city.

"But with all this we were still unable to finance our budget. However, if we have been able to grow girls and to guide them so as to make good citizens, we will have accomplished our purpose and our work is not in vain," she continued.

Mrs. Walsh is this year retiring from office, and in her "swan song," as she termed it, she paid warm tribute to the Y.W.C.A. and its staff. She was succeeded by Mrs. R. W. McClung, who presided at the meeting.

Mrs. R. W. McClung, the guest speaker, in a characteristically breezy speech, congratulated the Y.W.C.A. on its valuable work in the community and complimented the board on its efficient management of the institution during the present financial stringency.

Touching upon conditions, Mrs. McClung observed that the greatest need of the day was along educational lines to fill the minds of the people so that they could use their enforced leisure profitably. One of the happier portions of the present stress was that it was bringing people closer together, making them more companionable, more sympathetic and less selfish, and she felt sure that the world would emerge from the present crisis the better for that enhanced spirit of understanding.

"If we could make the right people hungry for ten days, we would solve all the problems of the world," was one of her pungent comments. Lack of imagination on the part of the prosperous was decried, as she pleaded for sympathetic understanding of the unemployed, and the world's need of the day was along educational lines. Mrs. McClung, who suggested that it would be a neighborly Christian act if Canada were to send some of

## PERSONAL

Owing to the snow and the condition of the roads, the Forest Inn, Shawanigan Lake, will not open until March 1.

Mrs. George C. Jones went over to Vancouver to-day on a visit to her brother-in-law and sister, Professor and Mrs. F. O. C. Wood.

Mrs. J. Sutherland Brown was hostess at her home at Work Point Barracks yesterday afternoon with two tables of bridge.

Mr. and Mrs. D. W. Evans of Vancouver arrived in the city yesterday to spend a few days. They are registered at the Dominion Hotel.

Miss B. Calkins of Vancouver arrived in this city yesterday, accompanied by her uncle, Mr. J. A. Bruce. They are guests at the Dominion Hotel.

Mr. and Mrs. Kenneth Barr of Vancouver are visiting in Victoria as the guests of Mrs. Barr's mother, Mrs. Gordon Grant, Fort Street.

Mr. and Mrs. John Fisher of Winnipeg, who have been spending the last ten days at the Empress Hotel, left yesterday for the mainland en route for their home in Manitoba.

Misses Jean Campbell and Florence Oles are leaving to-morrow to take part in the British Columbia badminton championships, being held at the Vancouver Lawn Tennis and Badminton Club this week.

Mrs. F. E. Fittness has returned to her home in Victoria after spending the past month in Vancouver as guest of Mrs. J. E. Grant, Spadina Street. Mr. and Mrs. Jack BaracloUGH have also been visiting Mrs. Grant, and have returned to Victoria.

Mr. Alfred Mannix and Mr. and Mrs. Fred Mannix arrived from Calgary yesterday, called by the serious illness of Mrs. J. E. Grant, Spadina Street. They are a patient in St. Joseph's Hospital. They are the guests of their brother-in-law and sister, Mr. and Mrs. Fred Fittness, Douglas Street, during their stay in the city.

Among the guests registered at the Dominion Hotel to-morrow, Mrs. George Wright, Springs Creek, B.C.; Mr. B. G. Cross, Vancouver; Mr. Charles Sorenson, Port Renfrew, B.C.; Miss Randi Sorenson, Port Renfrew, B.C.; Mr. J. A. Bruce, Vancouver; Mr. J. E. Grant, Spadina Street; Mr. J. Janet, Banfield, B.C.; J. Lang, Courtenay, and Mr. J. R. Cherry, Vancouver.

The committee in charge of the cricketers' dance to be held at the Shrine Temple on Thursday next have secured Mabel Wells, acrobatic dancer, to give an exhibition dance as a feature number. Tickets are selling fast and a good crowd is expected. Reg. Wood's orchestra will play the dance music. The proceeds will go to the fund for improvements at the new athletic ground at McDonald's estate.

The Starlets met at the home of Miss Vera Bickle, 948 McClure Street, the members present being Misses Moya Bailey, Nancy Davies, Ethel Lambert, Edith King, Vera Bickle, Margaret Thomson, Gene Keown, Elsie Hartley, Jessie Knight, Alma Wenger, Florence Sanders, Mollie Richards, and Bessie Cruickshank. A guest of the evening was Mrs. M. Richmond of Vancouver, a former member of the club. Bridge was played during the evening, the first prize being won by Mrs. M. Richmond, consolation, Miss Alma Wenger. The next meeting will take place at the home of Ethel Hartley, 139 Passmore Street.

Thirteen tables were in play at the very enjoyable progressive bridge party held at the home of Mrs. N. Brown, 824 King's Road, yesterday evening under the auspices of the Victoria Women's Institute. Mrs. Kate Palmer and Mr. and Mrs. Louis Schmeiss were the joint winners. The prize winners were: First, Mrs. P. Spurgeon and Miss R. Watson; second, Mrs. J. Entwistle and Mrs. P. Sheritt; consolation, Mrs. Yeamans and Mrs. Adie; special prize, Mrs. V. McLeod, grand slam. Mrs. Kate Palmer was the winner of the consolation prize. The affair was such a success that tentative plans were made to hold another in March. The institute will hold a Valentine tea next Tuesday afternoon at 2:30 o'clock at the Burns Hall.

Rev. Alan Gardiner, reporting for the nominating committee, announced that the following had been named as board members for three years: Mrs. Roy Angus, Mrs. James Cameron, Mrs. Alan Gardiner, Miss Norma Macdonald, Mrs. T. Hammond and Miss Jean MacLaren.

Rev. Alan Gardiner, in a short address during the devotional period, spoke of the value of the Y.W.C.A. to the city, and of the self-sacrifice involved in the work. He gave a glowing report of the Y.W.C.A. and its staff, and of the work they were doing. He said that the Y.W.C.A. was a "Y" that was making her less self-reliant."

Reference was made to the special efforts made to raise funds, including the very successful pageant, a donation of \$500 from the Provincial Government, and \$700 rebate on taxes from the city.

"But with all this we were still unable to finance our budget. However, if we have been able to grow girls and to guide them so as to make good citizens, we will have accomplished our purpose and our work is not in vain," she continued.

Mrs. Walsh is this year retiring from office, and in her "swan song," as she termed it, she paid warm tribute to the Y.W.C.A. and its staff. She was succeeded by Mrs. R. W. McClung, who presided at the meeting.

Mrs. R. W. McClung, the guest speaker, in a characteristically breezy speech, congratulated the Y.W.C.A. on its valuable work in the community and complimented the board on its efficient management of the institution during the present financial stringency.

Touching upon conditions, Mrs. McClung observed that the greatest need of the day was along educational lines to fill the minds of the people so that they could use their enforced leisure profitably. One of the happier portions of the present stress was that it was bringing people closer together, making them more companionable, more sympathetic and less selfish, and she felt sure that the world would emerge from the present crisis the better for that enhanced spirit of understanding.

"If we could make the right people hungry for ten days, we would solve all the problems of the world," was one of her pungent comments. Lack of imagination on the part of the prosperous was decried, as she pleaded for sympathetic understanding of the unemployed, and the world's need of the day was along educational lines. Mrs. McClung, who suggested that it would be a neighborly Christian act if Canada were to send some of

her over-abundant crops to Russia to feed the hungry.

Miss Clay thanked the speaker on behalf of the board and Mrs. Hammond presented Mrs. McClung with a sheet of daffodils.

Mrs. J. D. Gordon paid a tribute to Mrs. Walsh for her efficient and helpful work, and Mrs. Wilfred Hartley presented Mrs. Walsh with a lovely basket of pink tulips from her co-workers on the board.

**OTHER REPORTS**  
The treasurer's report, read by Mrs. J. R. Kingham, showed that the net receipts had amounted to \$3,652.92 and after deducting amounts for administrative expenses and depreciation, etc., there was a loss of \$500. The secretary's report was read by Miss Fawcett, and this included references to the work of standing committees.

Other reports were as follows: Social, Mrs. F. J. Norris; house committee, Mrs. J. A. Pearce, which showed that 34,100 meals had been served, 1,000 transients welcomed, and an average of fifteen resident girls each month. Mrs. Sandham Graves read the report of the personnel committee, which established a contact between the board and the staff, and through whom many adjustments towards the smooth running of the institution were effected.

**TRAVELERS' AID**  
Miss Cheekley read the report of the Travelers' Aid, showing that 2,134 board and 408 trains had been met and 577 women and girls given assistance. Miss Gene McLeod read the report of the general secretary, which told of the activities of the house and residents. Mrs. D. E. Smith, reporting for the membership committee, announced that thirty new members had been enrolled. Mrs. T. Hammond outlined the work of the various clubs and departments, in her girls' work report, and Miss Jean MacLaren read the report of the religious work.

**NEW BOARD MEMBERS**  
Mrs. Alan Gardiner, reporting for the nominating committee, announced that the following had been named as board members for three years: Mrs. Roy Angus, Mrs. James Cameron, Mrs. Alan Gardiner, Miss Norma Macdonald, Mrs. T. Hammond and Miss Jean MacLaren.

Rev. Alan Gardiner, in a short address during the devotional period, spoke of the value of the Y.W.C.A. to the city, and of the self-sacrifice involved in the work. He gave a glowing report of the Y.W.C.A. and its staff, and of the work they were doing. He said that the Y.W.C.A. was a "Y" that was making her less self-reliant."

Reference was made to the special efforts made to raise funds, including the very successful pageant, a donation of \$500 from the Provincial Government, and \$700 rebate on taxes from the city.

## AS YOU DESIRE ME

that your skin may emphasize the desirability of youth

Use Palmolive... the one soap rich in OLIVE OIL

Touch your skin... does it feel smooth—soft—firm? Remember, charm expresses itself most truly in a youthful, radiant skin.

Youth can be yours. You can keep your skin lovely, young, alluring. More than 20,000 beauty experts agree—because it is the one world-recognized soap that uses olive oil as its chief beauty ingredient.

Use Palmolive on the whole body. Rinse with warm water, followed by cold.

VARSITY WOMEN  
HEAR DELEGATEMrs. Douglas J. Thom, Can-  
adian President, Tells of  
Edinburgh MeetingMoral Disarmament Urged at  
International Conference of  
University Graduates

Some of the highlights of the international conference of university women held in Edinburgh last summer were recapitulated by Mrs. Douglas J. Thom, of Regina, president of the Canadian Federation, at a meeting of the local club held at the home of Mrs. E. G. Hart, Laure Lane, yesterday evening.

NOTABLE PERSONALITIES

Mrs. Thom recalled some of the personalities among the 325 delegates who represented thirty-four countries. The Dutch Federation was represented by a woman from far-away Java, one of the most delightful personalities at the meeting; just as Dr. Grassi, the Italian delegate, was one of the most outstanding. French and English were the official languages, all the principal addresses being interpreted into one or the other by a brilliant French Swiss who very often, everyone was convinced, made the discourse more interesting than it had been in the original.

Edinburgh received the conference in a wonderful way, and during their stay the members were generously entertained. At a special reception given by the Provost of Edinburgh, when all the ballies turned out in processions in their impressive robes, the Canadian representatives had felt extremely flattered by the special attention extended to them on account of the friendly curiosity felt by many of the hosts in a country to which many of their relatives had gone.

MORAL DISARMAMENT

In the discussions contentious subjects had been avoided, but one of the principal resolutions passed at the conference favored and urged moral disarmament, and delegates were advised to take back this recommendation to their respective countries.

After the conference at Edinburgh, the delegates scattered. Before she returned to Canada, Mrs. Thom made a tour of Great Britain that included a visit at Malvern, where the Drama Festival was in progress.

AT CROSBY HALL

In London she stayed at Crosby Hall for two weeks, and of her contacts there she spoke very appreciatively. Among Canadians whom she met there was Miss Dorothy Blake of Vancouver, winner of one of the university women's scholarships, who is doing very good work at Oxford. A very hospitable guide who did a great deal in helping visitors from overseas to see the interesting things in London was Mrs. Alys Russell, a former wife of Bertrand Russell.

The next conference of International women was planned for 1935, when Dr. Johanna Westergaard, professor of plant pathology in the University of Utrecht and in the University of Leiden, was to be president for the year. Dr. Winnifred Cullis, professor of science in London University, was president last summer, and presided at all the sessions.

The retiring president, Mrs. Robert Mercer, was presented with a silver compass by Mrs. James Scott as a small token of the Institute's appreciation of the work she has done for the last two years in her capacity as president.

Mrs. Porter and Mrs. Carpenter were hosts for the afternoon and during the tea hour arranged a Valentine puzzle concert, which was won by Mrs. John Findlay.

News of  
ClubwomenOAK BAY CLUB  
ATTENDS RALLY

The Obypa Club of the Oak Bay United Church attended the mass rally of the Interdenominational Young People's association. The Obypa represented the Oak Bay United Church. The rally being held under the auspices of the Religious Education Council of Victoria at the First United on Monday evening.

Members of the Obypa Club who received honors in their respective classes were Miss Agnes Forrest, Miss Carrie White and Miss Mabel Marshall. Dr. Gerald B. Switzer, honorary president of the club, also took an active part in the programme in the distribution of the certificates. The O.B.Y.P.A. thanked all those who were in charge of the social period, held in the schoolroom. Those present were Dr. and Mrs. G. B. Switzer, Mr. and Mrs. Walter Houston, president, Mrs. E. Green, Misses Burden, Thorburn, Carrie White, Mabel Marshall, Sadie Thorburn, Agnes Forrest, Isabelle Mackenzie, Margaret May, Binaid, and Cyril Irving. John Stobart, David Stott, Allan Stobart, Wilfred Summerfield, Gilbert Fairhurst and others.

Dance at Sooke—A card party and dance will be held this evening at the Belvedere Hotel, Sooke, commencing at 8 o'clock. The proceeds to go to the Catholic Mission at Sooke, of which Rev. Father Gaudette is in charge.

Held Installation—W.B.A. Queen Alexandra Review No. 1, met in the K. of C. Hall on Monday with acting president, Mrs. Mabel Burnett, in the chair. A large number of members were present to witness the annual installation of officers. The ceremony was performed with Mrs. P. Ricketts as installation officer and Mrs. S. McNeill and Mrs. E. Edmunds as ladies of ceremonies. After receiving with regret the resignation of Mrs. Stephens, she lodge installed Mrs. Mabel Burnett as president. The following officers were also installed: Past president, Mrs. Mc. Todd; vice-president, Mrs. E. Schmeil; financial secretary, Mrs. B. McAllister; recording secretary, Mrs. R. Ritchie; treasurer, Mrs. J. J. Morris; lady of ceremonies, Mrs. K. Keefe; chaplain, Mrs. H. Thompson; sergeant, Mrs. M. Kendall; inner hostess, Mrs. E. Walker; outer hostess, Mrs. M. Lartou; lady of the day, Mrs. J. Winter; standard and banner, Mrs. W. Henderson and L. Walker; press correspondent, Mrs. Ada Davis; musical director, Mrs. T. B. Veitch; musician, Miss E. Dawson; captain of the guards, Mrs. Annie Reid; color bearers, Mesdames B. Gardner, M. Trowdale, H. Herring and R. Malcolm; ensigns, Mrs. A. Taylor and Miss A. Appleby; members of the Pioneer Club, Mrs. F. Lalage; president of the Girls' Club, Miss Annie Reid. After the installation the returning officers, Mesdames Baylis, Adams, Brooks and Edmunds, were presented with useful gifts. Mrs. F. Ricketts also received a presentation. It was decided after the next meeting a bridge and whist party will be held, convening, Mrs. Burnett. At the close of the meeting refreshments were served by Mrs. Edmunds.

## YOUNG FINANCIER WEDS STAGE DANCER

Another romance between Fifth Avenue and Broadway came when Gilbert Kahn, eldest son of Otto Kahn, the United States banker, married Miss Jane Heller, a dancer. Their romance included her withdrawal from a musical production because Kahn objected to a bit in which she was playfully manhandled. It is Kahn's second marriage. The couple are shown above shortly after the ceremony.

Defines Canada's Status  
In International Affairs

Mr. Justice W. M. Martin  
Traces Steps Leading to  
National Autonomy

Women's Canadian Club  
Turns Out in Force to Hear  
Eminent Jurist

panied at the piano by Mrs. H. C. Frazer.

REFLECTS RECENT HISTORY

Canada's status in international affairs had largely to do with recent Canadian history, noted the speaker.

He proceeded to show that Canada's position in the British Empire warranted its recognition among the nations of the world and as a factor in international matters.

Going back a hundred years to the establishment of responsible government in Canada Judge Martin recalled the report then made by Lord Durham as to the advisability of uniting Upper and Lower Canada, and for the Canadian constitution to be "an image and transcript" of the British constitution. Subsequent events up to 1875 were cited to show British reluctance to concede the principle of autonomy to the Colonies.

Similar objection was raised against commercial treaties affecting Great Britain and its Colonies. Judge Martin read several extracts from Lord Durham's report in 1838 to show the limitations placed upon so-called responsible government in Canada, particularly as regards the disposal of public land, the disposition of which, Lord Durham claimed, should remain with the Imperial authorities.

STILL SUPREME

"The Parliament of Great Britain is still supreme and has control over all the Dominions, although it has not exercised it in recent years," observed the speaker, in referring to the control of the Canadian constitution by the Imperial Parliament as suggested by Lord Durham.

The treaty-making power of the Dominions had been acquired only after much difficulty and frequent argument with the Imperial authorities, the speaker said. He traced the fate of several tariff proposals suggested in Canada, to which exception had been taken in Great Britain, as in 1850 when the British authorities threat-

How to  
Save on  
Little Things

By sending us his neckties, his gloves, and other accessories, a considerable saving on these small items can be made. No matter how cheaply these things can be cleaned, it's a man's first impulse to discard them when soiled. Make a collection of these small items to-day—you will be delighted at the result of our cleaning.

NEW METHOD  
DRY-CLEANERS

needed to disallow Canadian legislation to this effect.

But after Canadian statesmen had pointed out that local government implied the right to make such tariffs, the British withdrew their opposition and to-day Canada was free to make its own commercial and political treaties. In 1831 Canada asked the right to send representatives to any conference which affected its interests, so in 1879 the first Canadian High Commissioner was appointed to London, but it was some time before foreign countries would recognize Canada's right to negotiate trade treaties without British intervention, continued Judge Martin.

The halibut treaty between Canada and the United States in 1932 was the first purely Canadian treaty, the treaty finally being ratified by the King on the advice of the Canadian government without the intervention of the British ambassador at Washington, Sir Auckland Geddes. This right of the Dominion to make their own commercial treaties was recognized by the Imperial Conference in that year. Before the war the right of the Dominion to make treaties was confined to technical agreements, as for instance, postal agreements, he pointed out.

POLITICAL STATUS

But Dominion statesmen since the beginning of this century had begun to press for the right to make political treaties without the intervention of the Imperial authorities. This stand was exemplified in Canada's attitude in the Great War, noted the speaker.

The participation of the Dominion representatives in the steps leading to the Anglo-Japanese treaty at the Imperial Conference was the first occasion on which the Dominions had shared in Great Britain's foreign policy. In the most important recognition of this right was forthcoming at the Imperial

War Conference in 1914, when the Dominions were given a voice in Britain's foreign policy. When the peace conference arrived after the war, the Dominions submitted a memorandum asking for a separate representation from that of Great Britain, in view of their war contributions, to which the Supreme War Council finally agreed, thus recognizing the autonomy of the Dominions.

The International Status of the British Dominions now depends upon the Balfour report, which states England is one unit and each Dominion another, each unit a self-governing body equal in status and no one subordinate to the other. This report set out in a formal way what had been the general relationship between Great Britain and the Dominions, crystallizing conventions which had not been properly understood by some of the Dominions. The right of each Dominion to negotiate on any subject with any foreign power was also set forth in this report. But prior consultation with the other units was advocated as a safeguard.

The question of diplomatic relations was also touched upon in the speaker's review of the Balfour report.

The jurist recapitulated the position of Canada at the Washington Conference in 1923 when the United States government invited Great Britain only, and at the subsequent conference in 1927, when the United States invited Great Britain and the Dominion, in connection with the Kellogg Peace Pact, to which all the Dominions were invited.

The condition now existing in the British Commonwealth of Nations is similar to what James Madison, fourth president of the United States, said was the aim of the thirteen colonies in 1776, when these colonies claimed to legislate for themselves as to local matters, while recognizing the royal prerogative. Judge Martin said in conclusion.

Your Baby  
and Mine

BY MYRTLE MEYER ELDRED

NERVOUS HABITS NEED INDIRECT TREATMENT

Every mother exhibits identical attitudes toward any nervous habit with which her child is afflicted. Her corrections and efforts at cure are all directed toward the habit itself instead of toward an improvement of the child's physical condition or his environment.

RESTRAINT

Almost every mother starts in by trying to restrain the child forcibly from indulging in the habit. She hopes to make him forget it or give it up as hopeless. Secondly, she shames and scolds the child, endeavoring to make it socially painful for him to be caught pursuing the habit. Thirdly, she punishes him severely in an effort to convince him that he can expect to suffer unless he mends his ways.

The net results of her efforts are to impress the habit upon the child so strongly that he could not forget it if he would. She convinces him that he has no control over the habit, and this knowledge stifles his personal efforts to combat it. If his mother's punishment is too severe, it arouses such violent antagonism toward her as to increase the child's desire to indulge in the habit; just because he can't, whether she punishes him or not.

ANY HABIT

We have been talking about nervous habits in general, but this discussion covers all the habits with which most mothers have to deal. Enter in the place of the word "habit" the specific one which afflicts your child—thumb sucking, lip sucking, head banging, fussing, eye-winking, shoulder-shrugging, dirt eating, nose picking, nail biting and the undesirable sex habits. Mechanical habits, such as shaming and severe punishment, do not, except in the most exceptional cases, change or cure these habits. The mother can verify this by her own experience.

All of the above habits, of whatever origin, tend to be indulged in and then forgotten, provided the mother displays a sensible attitude toward them. Her efforts should be directed toward improving the child's physical condition by good food, better rest, both day and night, and more exercise in the open air.

NO FAST CURES

The child's interest in physically active amusements should be aroused, as almost without exception such habits are practiced when the child is passive.

Even if the mother feels discouraged by the slowness with which a child shakes off a bad habit, she should be convinced that any effort to deal with

Presentation To  
Late President  
Lake Hill W.I.

Mrs. William Peden, who attended the annual meeting of the Crippled Children's Association held last week in Vancouver, reported on the gathering at the regular meeting of the Lake Hill Women's Institute yesterday, presided over by Mrs. T. Currie, the president.

Mrs. Peden gave an interesting report of the Vancouver event, told of the wonderful growth of the children's association and described the work being done by women's institutes in connection therewith. She was accorded a hearty vote of thanks at the conclusion of her talk. A talk and demonstration on British knitwear manufacturing in Canada by Canadians, was much enjoyed by the members and visitors.

The retiring president, Mrs. Robert Mercer, was presented with a silver compass by Mrs. James Scott as a small token of the Institute's appreciation of the work she has done for the last two years in her capacity as president.

Mrs. Porter and Mrs. Carpenter were hosts for the afternoon and during the tea hour arranged a Valentine puzzle concert, which was won by Mrs. John Findlay.

## Horoscope

THURSDAY, FEBRUARY 8, 1933

Sinister planetary influences are strong to-day according to astrology. Careful attention should be given to the future. Women should be especially careful to-day anything that involves the future is likely. They may be easily deceived. Disappointments in the political world are forecast for many of the clever citizens and voters. The stars presage for women success in old-time occupations and interests.

In the new era reactionary impulses are strongly contrasted with a tendency toward radical changes, the seers explain, and the evening should be a favorable time for business structures previously built up. Many conditions that may appear disastrous are but mere born for future progress in which civilization will become something more than a name, the seers prophesy.

This is not an auspicious day to begin anything new, but it is a day to have the augury of a year of some anxieties, but should be generally fortunate. Journeys are prospected.

Children born on this day probably will be successful in life. Many leaders of their time are born under this sign of Aquarius.

William Henry Harrison, ninth President of the United States, was born on this day 1773. Others who have celebrated it as a birthday include Sam Houston, a famous Texas leader, and Samuel Bowles, noted journalist.

Aged Women's Home  
Receives Reports

The committee of the Aged Women's Home met yesterday afternoon at 2:30 o'clock. Mrs. W. L. Clay, the president, occupying the chair, and members present, Mesdames I. A. Gould, W. Grant, S. Leiser, F. W. Vincent, E. Seddon, D. C. Sabiston, A. D. Whittier, and Miss O'Brien.

The ordinary routine of business was attended to and all accounts for the month reported. The secretary reported that two inmates had entered during the month, so that the Home was completely filled. The general health was exceptionally good just now, for which the committee are extremely thankful. The committee for the month, Mesdames Grant, Sabiston and Gould, were instructed to have some needed repairs made, and the new hot water tank was reported installed and was completely satisfactory.

Regret was expressed that Mrs. Harad Grant was unable to be at the meeting. A number of magazines were received from Mr. Keast which were greatly appreciated by the inmates of the Home.

Liberal Women  
To Hear Organizer

All Liberal women are invited to attend the meeting of the Liberal Women's Forum to be held on Friday afternoon at 2:45 o'clock at the headquarters, Broughton Street, Major S. F. M. Moodie, provincial librarian, is the speaker, and Mesdames Dolly Rutledge and Master Gerald Nelson will be the soloists.

Children's Aid Annual Meeting—The annual meeting of the Children's Aid Society will be held to-morrow evening at 8 o'clock at the home, 1234 Pandora Avenue. All interested are invited to attend.

Stubborn Coughs  
Ended by Recipe,  
Mixed at Home

Saves \$2. No Cooking! So Easy!

Here is the famous old recipe which billions of housewives are known to be the most dependable means of breaking up stubborn coughs. It takes but a moment to prepare, and costs very little, but it positively has no equal for quick, lasting relief.

From any drugstore, get 2½ ounces of Pinex. Pour this into a 16 oz. bottle and fill the bottle with granulated sugar syrup, made with 2 cups of sugar and one cup of water, stirred a few moments until dissolved. No cooking needed—it's so easy! Thus you make 16 ounces of better remedy than you could buy ready-made for three times the cost. It never spoils and children love its taste.

This simple mixture soothes and heals the inflamed throat membranes with surprising ease. It loosens the germ-laden phlegm and eases chest soreness in a way that is really astonishing. Pinex is a highly concentrated compound of Norway Pine, the most reliable healing agent for severe coughs. It is guaranteed to give prompt relief or money refunded.

## VESUVIUS SPOUTS THROUGH HER NEW CONE

Old Vesuvius, the Italian menace, is at it again, spouting molten earth and vapor from a new cone inside its large crater. This unusual picture, taken from the rim of the crater, shows the new eighty-foot high cone. Mr. Vesuvius does its spouting through a forty-foot mouth, only part of which is visible here.

## NEW SCHEDULE IN MAJOR BALL

## Teams in National League Will Start Sectional Invasions Earlier

## Club Owners Wrestle With Many Problems: "Moralism" Is Proposed

New York, Feb. 8.—Baseball club owners of the National League wrestled yesterday with most of their main problems, including some means to operate the financial pulmotor on the minor leagues, but the only concrete results of nearly five hours' discussion were (1) the tightening of regulations against giving any bonuses whatsoever to ball players and (2) plans to stage east-west competition earlier in the season.

The magnates deferred adoption of their 1933 schedule, however, in contemplation of the Pennsylvania legislation aimed at permitting Sunday baseball in Pittsburgh and Philadelphia. Alternative schedules have been drawn but the opening and closing dates, April 12 and October 1, are the same.

Proposals for a "moralism" for a period of eighteen months in the debts of minor leagues, whose franchises now have lapsed, were discussed by National League men with representatives of the National Association, but no definite action was taken.

Under the new schedule plans, National League clubs in the west will invade the eastern half of the circuit on May 2, eight days earlier than usual. The eastern clubs will start their first western trip May 16, two weeks earlier.

Los Angeles, Feb. 8.—Flashing the form that has made her one of the world's greatest feminine golfers, Miss Virginia Van Wie, Chicago, national titleholder, had little trouble yesterday defeating Mrs. C. C. Cary, Los Angeles, in the first round of the mid-winter Southern California tournament, 8 and 7.

Miss Marion Hollins, Santa Cruz, former national champion, eliminated Mrs. Tom Williams, La Jolla, 4 and 2. Miss Van Wie was only one over par when the match ended, in spite of a North wind that at times reached gale proportions in sweeping over the Los Angeles Country Club course.

Miss Hollins, who Monday set a new competitive record of 74 to win the qualifying round, next faces Mrs. L. D. Cheney, San Gabriel, who defeated Mrs. E. W. Buckley, Los Angeles, 6 and 5.

## Grantland Rice Wins Golf Match

Palm Beach, Fla., Feb. 8.—Grantland Rice, the medalist, and Rex Beach, defending champion, came through with easy victories in the first round of match play yesterday in the annual Artists and Writers' Association golf tournament.

## British Women Golf Players Reach U.S.

New York, Feb. 8.—A team of British women golfers, who will compete in several Florida tournaments, arrived in New York yesterday on the liner Samaria and will leave to-night for Florida.

## Vernon Captures Interior Title

Vernon, Feb. 8.—Vernon captured the Okanagan Valley League hockey championship here yesterday evening by a 7-to-4 win in the best two out of three play-off series with Salmon Arm, having won 4 to 1 at Salmon Arm on Friday.

## MISS VAN WIE WINS EASILY

Defeats Mrs. C. C. Cary 8 to 7 in California Mid-winter Golf

Los Angeles, Feb. 8.—Flashing the form that has made her one of the world's greatest feminine golfers, Miss Virginia Van Wie, Chicago, national titleholder, had little trouble yesterday defeating Mrs. C. C. Cary, Los Angeles, in the first round of the mid-winter Southern California tournament, 8 and 7.

Miss Marion Hollins, Santa Cruz, former national champion, eliminated Mrs. Tom Williams, La Jolla, 4 and 2. Miss Van Wie was only one over par when the match ended, in spite of a North wind that at times reached gale proportions in sweeping over the Los Angeles Country Club course.

Miss Hollins, who Monday set a new competitive record of 74 to win the qualifying round, next faces Mrs. L. D. Cheney, San Gabriel, who defeated Mrs. E. W. Buckley, Los Angeles, 6 and 5.

Portland, Ore., Feb. 8.—A Wing Lee, Portland Chinese, won a decision over Mickey Cohen, Denver, in the ten-round main event of yesterday evening's fight card here. Lee weighed 137 and Cohen two pounds more.

Whitely Neil, 127, British Columbia, won a six-round decision over Joe Calder, 121, Seattle, in the semi-wind-up.

## Fights

West Palm Beach, Fla.—Bucky Button, Terre Haute, Ind., outpointed Dave Barry, St. Louis, (10).

Rehester, N.Y.—Connie Morris, Syracuse, N.Y., outpointed Freddie Mitchell, Southend, Ind., (6).

St. Louis: Joe Ghouly, St. Louis, outpointed Battling Shaw, Laredo, Tex., (10); Joe Huff, St. Louis, outpointed Billy Hogan, Piermont, N.Y., (10).

12:00—Organ Concert.

11 a.m.—Opera "La Sonnambula," featuring Lily Pons—KJL.  
2 p.m.—Cambridge University debate between Cambridge and Yale universities on "Resolved: Immediate and complete cancellation of war debts is unnecessary to world recovery." Cambridge taking the affirmative—KJL.

## CANADA'S SUPREME REMEDY FOR COUGHS AND COLDS

Think of it—70% of the good people of Canada swear by Buckley's mixture (triple strength)—and buy it every time they need it.

One little sip and the ordinary cough is gone—a few doses and that tough old hang-on cough is heard no more—it's wonderful to watch how speedily bad, lingering colds are put out of business.

It's the same with bronchitis—right away that tightness loosens up—the bronchial passages clear—you're on your feet again—happy and breathing easier.

And here's something else—Buckley's starts at once to neutralize the acid condition present and that helps too. You may need Buckley's Mixture to-night for yourself or the children—so get a bottle and keep it handy, acts like a flash—a single sip proves it. For your health's sake, Demand Buckley's. Cheap imitations are numerous. (Adv.)

## THE DURANT LECTURE

(Continued from Page 4)

the world, and on which he has written several books. In a letter which I received from him last week, he stated that although he held no brief for Communism, he was not a Communist. He said that it has, to quote his exact words, "the most correct and logical system, as far as ideals are concerned, in the world." He said that there is no question that Russia has a good plan, and that is to the good; yet, he said, she cannot cure crime even with her new economic system. He said that all the rest of the fine things she is doing, however, I am for the fact that she is treating most of her criminals with the new economic system. The fact that the professor is not a Communist is a statement all the more impressive, for from the fact that he is a Communist, he is also widely traveled and has had every opportunity of coming into contact with the Communist system in many countries, including the United States.

## THE A B C D OF FINANCE

To the Editor:—Kindly permit me to say that I am very interested in the questions asked in my letter appearing in The Times of January 30. What is the A-B-C of each to the other? To A and B and C are all severely handicapped. I will always take jolly good care of my money. You are the creditors of the mass called D, and sooner than later we shall all be A. Truly a part of finance? What cash or money could C actually advance to B on account of A were he to see the light? What interest does C actually receive yearly did he swap notes with B, as advised by A and B and payable by B? \$47.07?

The answers to the last two questions require proof, of course, and I will be forthcoming shortly, but perhaps the foregoing is sufficient to simulate for the present, as right now we are more concerned with why should we look at a wonderfully superior bet? Fancy a better rate per annum than \$47.07, while your neighbor suffers in many instances, untold misery, and he holding a time security usually worth the capital amount of \$81.05 with only a net indebtedness of \$147.07, provided nothing at all is ever paid until the end of a ten-year period from date. Surely, only you know what will actually happen to A's earning power, he dormant for any such period. Either C overtook the coppered bet, or he is making more than forty-seven cents on the dollar yearly. There can be no other assets. The proof to be coming shortly as to cash and interest will include solvency and usury as actually anticipated by a practical money lender, and how the chartered money-lenders could profitably and quickly range to advance say approximately a graduated sum of \$100 per month for an indefinite period to every unemployed person capable of earning throughout the whole of Canada.

## NOTE—SHAVEN

PROF. DURANT'S LECTURE  
To the Editor:—Professor Durant's designation of the Russian Soviet system implies a misconception either of or feigned. Anyone familiar with the writings of Marx, Engels, and Lenin will realize that the establishment of pure Communism presupposes a very high economic and social advance with a corresponding development permeating the whole mass of the people: it will "bring a new era of life to the social ownership and control of the means of life. This is the only, in an economically very advanced country such as the United States, to be accomplished in a decade or two, but in a backward country such as Russia, it will be a more painful and a slower process. What Prof. Durant saw in Russia, and of course he knows this perfectly well, was the transition state; the bridge between Socialism and Communism. Marx calls this state of transition the lower order of Communism because of its prolonged travail of birth from capitalist society, and because of its emergence from a state based on the exploitation and suppression of one class by the other, it will exhibit many defects, many that are unjust. From our study of the published resume of the professor's lecture, we reach the conclusion that it is just these transitional defects that he went to discover, to exaggerate and expatiate on. Prof. Durant quotes Plato: "Men are still pigs!" Well, perhaps Plato said this, but he also said much that was grand, deep and beautiful. And, anyway, when we observe some members of the ruling class and contemplate their ample, round medial developments and consider their Epicurean mode of life on the one hand, and on the other, the extending poverty and consequent misery and wretchedness of whole masses of people, we would agree with Plato, only qualifying his dictum thus: "Some men are pigs!"

Prof. Durant says that 80 per cent of the men, women and children he saw in Omsk were starving and in rags. On what numerical composition does he base the percentage? Were these people a handful of the old social strata, the Charvats, the rascals? Of course this class will be much in evidence in the Russia of to-day, when all are subject to the regulation. "He who does not work neither shall he eat." But is their status any worse, is it as bad as that of thousands of the unemployed throughout the great United States for example?

The professor's attitude relative to the Russian plan is not worthy of serious comment, so serious is the evidence of the accomplishment of that mighty exploit, and that in spite of the opposition, materially and ideologically expressed of the whole capitalist world.

The Soviet, Prof. Durant says, has confiscated the savings of the people in the United States alone there are upwards of 13,000,000 workers unable to secure employment? Where are the savings of these people? Where the capitalist system rules, nine-tenths have no savings, i.e. no property because one-tenth own, control, dominate all.

The professor states that 50 per cent of the people live in free love, that their marriage code is impossible and he immediately negates this with the admission that there is no sex or obscene literature in Russia; that the majority of the Russians is on a far higher plane than America.

The woman in Russia is emancipated, continues Prof. Durant, and then, "the emancipation of the Russian woman was a myth," and again "she (Russia) has emancipated the Moslem women!"

Was the professor's philosophical juggle muddled? Or shall we agree with Goethe: "There is no philosophy because there are no philosophers?"

Prof. Durant indicts Communism with the destruction of the family, but no glacial depth of sociological knowledge is required to discover that the ancient, time-honored sacred family relationship is well on the road to destruction in capitalist society. But let us inquire into this further. Lewis Morgan, eminent American sociologist, proved that the family has passed through four successive forms, and is now in the fifth and to the question that at once arises whether this form can be permanent in the future. "The only answer that can be given is, that it must advance as society advances, and change as society changes, even as it has done in the past. It is the creature of the social system and must reflect its culture." (Sic) But to critically follow Prof. Durant's lecture further we have neither the time, nor may we hope to solicit the space, N. P. DOUGAN, Cobble Hill, B.C., February 6, 1933.

UNPOPULAR WIN  
San Jose, Cal., Feb. 8.—Charley Manning, 132, San Jose, outpointed Rudy Benton, 132, Mexico, in the main event here yesterday evening.

KARASICK WINS  
Tacoma, Wash., Feb. 8.—Al Karasick, 182½, Chicago, won two out of three falls over Bob Myers, 165, Portland, in the main event of the wrestling programme here yesterday evening.

## MONARCH LIFE REPORT GOOD

Assets, Cash Income and Reserve Funds Increased During 1932

Increases in assets, cash income, and reserve funds, satisfactory surplus earnings, decreased expenses, and a favorable mortality experience are features of the report of the Monarch Life Assurance Company, presented at the twenty-seventh annual meeting of the company in Winnipeg.

The company's assets increased during the year to stand now at \$10,000,000. Business in force at the end of the year totaled \$50,346,800 and new and revived business \$7,964,897. Cash income increased to \$2,143,878.94. Payments to policyholders and beneficiaries totaled \$1,186,859.12, of which almost \$1,000,000 was paid out to live-

J. A. MACFARLANE  
General Manager

ing policyholders. Policy and annuity reserves increased to \$9,165,876.

The company reports a continued favorable mortality experience, death claims in 1932 being 32 per cent of the expectation. Surplus earnings for the year were satisfactory, ranking among the best in the company's history.

### CASH POSITION STRONG

The cash position of the company is reported to be strong and an outstanding feature of the report is the conservative treatment of its assets which have been written down below the values authorized by the Dominion Insurance Department. Special reserve funds have also been strengthened and special reserves and surplus now exceed \$1,000,000.

The following were elected directors: W. A. Macdonald, W. L. Parrish, R. J. Gourley, W. T. Gwyn, D. H. Hudson, A. O. Martin, George H. Stewart and John A. Flanders, all of Winnipeg. Price, Waterhouse and Company were named auditors for the coming year.

At a subsequent meeting of the board, E. J. Tarr, K.C., was elected president; W. A. Matheson, chairman of the board of directors, and W. L. Parrish, vice-president. J. A. MacFarlane is general manager and secretary of the company.

## Langford

Many handbags were made by members of the Langford Women's Institute at a tea held Monday afternoon for use in the school. Three machines for rolling the handbags were used, two being loaned by the Victoria Red Cross Society. Miss Savory, vice-president of the I.W.I., welcomed Mrs. N. E. Fairweather, president of the Victoria W.I., who invited the members to the town meetings, particularly on February 17 when an address on the Tudor Rose emblem will be given. Mrs. V. S. MacLachlan, superintendent of Women's Institute, in an introductory address explained the nature of the Academy of Arts and Crafts and introduced Miss Turley, who is the head of the academy in Victoria. Miss Turley described the course of the remarkable lessons. Members decided to form a class which will commence February 11 in the Women's Institute Hall at 1:30 o'clock.

The executive members of the Esquimalt Rural Nursing Association will hold their monthly meeting February 9 at 8:15 o'clock at the home of Mr. and Mrs. D. B. Bullen, Marquardt. Miss Thelma Brotherton, who has been visiting relations and friends in Wyoming for three months, returned Sunday to her home on Millstream Road.

Mrs. McClusky is visiting her niece, Mrs. W. Moore of Goldstream.

About a million dozen eggs and a quarter million pounds of dressed poultry were handled last year by the Prince Edward Co-operative Egg and Poultry Association.

Timothy seed production in Canada has been more than triple the average production of previous years, in each of the last three years.

Preliminary estimates place the total fish catch of Nova Scotia for 1932 at 185,000 pounds valued at \$3,495,861 as landed.

## Bladder Troubles Bother Many Past 40

Seven Out of Ten Are Victims But Writer Tells How "Uratabs" Bring Swift, Amazing Relief With Renewed Vital Force

"No one knows better than I the horror of joyless days and sleepless nights. There have been times when I felt hopeless and helpless—and when my weakness caused me the most intense humiliation. Only those who have gone through such tortures can possibly realize my great satisfaction when Dr. Southworth's URATABS brought me quick relief. URATABS are truly wonderful, and I feel that I should try the amazing evidence serves as convincing proof of the power of URATABS to relieve those distressing ailments so often a handicap to those in middle life.

Overworked, sluggish kidneys, and bladder weakness, bring on so many distressing ailments which so often lead to serious diseases that every sufferer from bladder, kidney, or urinary troubles should try Uratabs. Pains in back and down through groins, scanty but frequent urination, getting up at night, nervous irritability and lack of force—should try the amazing value of Dr. Southworth's URATABS at once! Any foot druggist will supply you on a guarantee of satisfaction or money back.

(Adv.)

## PHOTOS INTRIGUE LENIN'S SISTER

Keen interest in the intricacies of photography is being shown by Maria Ilyichna Ulyanova, sister of the late Nikolai Lenin. She resides at "Gorky Hills" where the Soviet leader spent the last years of his life. Her instructor in the photographic art is Novitsky, famous Soviet photo-reporter.

## LAWYERS WANT Native Daughters VICTORIA JUDGE

W. C. Moresby, K.C., Honored By Bar Association, Which Sends Resolution to Ottawa

Members of the Victoria Bar Association at a special meeting at the Court House, under H. G. Lawson, made W. C. Moresby, K.C., a life member in recognition of his long record of services and distinctions. At the same time the association passed a resolution to the effect that if a new Supreme Court judge is to be appointed to succeed Mr. Justice Gregory, retiring at the end of March, that a Victoria man should be appointed.

It was pointed out that Mr. Justice Gregory has been the only Supreme Court judge living in Victoria. The other five live in Vancouver. Under the present arrangement one judge is assigned to Victoria each month by Chief Justice Morrison. This judge comes over to Victoria Monday morning and returns to his home in Vancouver Friday afternoon and sometimes on Thursday, thus leaving Victoria lawyers without a judge over the long week-end when they sometimes want to make an urgent application.

The request for a resident judge here is being sent to D. B. Plunkett, M.P. for Victoria, for presentation to Premier Bennett and the Department of Justice at Ottawa.

In honoring Mr. Moresby, whose name is mentioned in legal and political circles as a successor to Mr. Justice Gregory, it was pointed out at the meeting that Mr. Moresby was called to the bar in January, 1899, and has been a member of the B.C. Law Society for twenty years.

The meeting nominated H. G. S. Heisterman as candidate for election as a barrister for the Law Society.

## LAND VALUES AT DUNCAN REDUCED

Duncan, Feb. 8.—A meeting of the Duncan city council and court of revision, was held at the city hall Monday evening. Mayor Prevost presiding. There was one appeal to the court of revision, that from J. E. Knox. The court ordered that improvements on his property be reduced 5 per cent, and a reduction also of 20 per cent on the land value. The court subsequently passed a blanket resolution, reducing all land values for the entire city by 20 per cent.

The council decided to make a grant to the hospital for the year of \$125 per month, in lieu of the fixed amount payable under the Hospital Act.

C. F. Davis wrote advising the council that the master of protecting the lower reaches of the Cowichan River from erosion, was under consideration, under the River Bank Protection Act. Members of the Duncan volunteer fire department will in future probably be protected by a private insurance company, instead of being under the Workmen's Compensation Act.

The auditor's report, and balance sheet, was presented, showing the city to be in a sound financial position.

## NO NEW BARTER OFFER IS GIVEN

Ottawa, Feb. 8.—The Commons was told by Hon. Hugh Guthrie, Minister of Justice, yesterday afternoon the federal government had received no additional offer from the Serkau syndicate in which it undertook to finance the proposed barter with Russia.

The barter scheme involved 100,000 Canadian cattle in exchange for Russian coal and oil.

Mr. Guthrie's answer was given to a question asked by Michael Luchkovich, U.F.A. Vegetarian, who, reading from a newspaper report, quoted Mr. Serkau as saying the syndicate be represented was in a position to go ahead and finance its operations, provided guarantees could be obtained from the government.

"If the government has received such an offer," asked Mr. Luchkovich, "what are they going to do about it?" Supplementing Mr. Luchkovich's question was one from George McPhee, Liberal, Yorkton, Sask., who asked if the government, or any members of the government, had knowledge last October of the Serkau-MacDonald syndicate deal with Russia, and if such knowledge had been communicated to the government.

Mr. Guthrie requested Mr. McPhee put that question on the order paper.

A recent development in all-empire communication was the routing of a telephone call from Halifax to London, England, through the plant of the Marconi Beam System, near Mon-

## Native Daughters Mark Anniversary

Ladysmith, Feb. 8.—The local post of Native Daughters celebrated their second anniversary in the Native Sons' Hall Monday evening.

"Earthquake" whist was played, the prizes being won as follows: Ladies first, Mrs. A. Galloway; second, Mrs. J. A. Barclay; third, Mrs. F. DeFranco; gentlemen's first, Miss Isabella McRae (substitute); second, T. Thomson; third, J. Robertson.

A sketch was presented entitled, "The Homestead," with the following taking part: Cassie Morrison, Margie Beattie, Arsen Peeters, Lena Michreux, Anna Truss and Arthur Morrison.

Refreshments were served, followed by dancing.

A five hundred card social was held in St. John's Hall Monday evening by the church committee. The prize-winners were as follows: Ladies' first, Mrs. J. F. Patterson; second, Mrs. T. Stiff; gentlemen's first, Archdeacon Hancock second, W. A. Cullum.

Miss Elsie and Christie Orr of Victoria were the week-end guests of Mr. and Mrs. M. Gilson.

E. Reid has returned to Port Alberni after visiting his parents, Mr. and Mrs. E. G. Reid.

Mr. W. Inglis of Nanaimo is visiting relatives here.

Fred Fagan of Victoria is spending a holiday here with his uncle and aunt, Mr. and Mrs. M. Gilson.

Mrs. M. E. Carley of Victoria is the guest of Mr. and Mrs. C. E. Rowe.

Mr. and Mrs. Corbit and Mr. and Mrs. A. H. Johnson, of Nanaimo, were recent guests of Mr. and Mrs. G. E. Reid.

## FAREWELL PARTY AT CHEMAINUS

Cheminus, Feb. 8.—A farewell party and dance was given by the Cheminus, Young People's Club and basketball club in the Picture House February 2 for Walter Murray, who is leaving the district. Dancing was enjoyed, the musicians being Miss Alice Dyke, George Phillips and West Morris.

Supper was served under the co-sponsorship of Misses Violet Laidlaw, Dolly Murray and Doris Parker and Messrs. Douglas Inkster, Gordon McInnes and Buster Vernon. After supper Walter Murray was presented with a billfold and contents of the Ladies' Aid Mission Circle of Calvary Baptist Church was held with Mrs. E. H. Troop in the chair. Reports were read by the secretary and treasurer, and bills passed for payment.

Mrs. E. M. Ankettell-Jones has returned home to Fuller's Lake after spending a week at Hatley Park with Mrs. Graham-Graham and her brother and sister-in-law, Lieut.-Commander Mander-Gold, R.E.C., and Mrs. Donald, Constance Avenue, Esquimalt.

Walter Murray and Clifford Shillito have left for Dawson, Yukon Territory.

Mrs. J. H. Cowan visited relatives in Nanaimo at the week-end.

Mr. Mayne was the week-end guest of the Rev. E. M. and Mrs. Cook.

Mr. and Mrs. John Underwood entertained Friday night, the occasion being the eighty-fourth birthday of Mrs. Underwood's father, Monce Davis.

A pleasant evening was spent playing five hundred, after which supper was served. Those present included Mr. Davis, Mr. and Mrs. Walter Porter, Mrs. Allan Porter, Mr. and Mrs. E. G. Moore, J. Moore, Mr. and Mrs. William McCladrey and Mr. and Mrs. Underwood.

There's nothing that touches the modern girl's heart so deeply as the tender sentiment of a valentine—unless it's the five pounds of assorted bonbons she knows she'll find under the cover.

—Second Floor, HBC

## Entertain at Bridge!

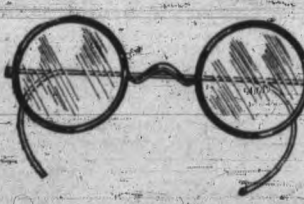

In Our New Bridge Room!

The hostess who wants to arrange a Bridge party at short notice will find a happy solution to her problems in our new and delightful Bridge Room, adjoining the Victorian Restaurant.

For \$1.00 a Table

Including dainty Afternoon Tea for four—Tea-cups, Reading if you like—and no extra charge for the use of the room! Just phone E7111 for reservations.

—Fourth Floor, HBC

It's a Fact!

That many persons continue to wear lenses long after they have outlived their usefulness, and that many a person is suffering the penalty for neglected eyes that a thorough examination of the eyes would reveal.

Investigation has shown that a large percentage of those who would be infinitely more comfortable if their ocular defects were corrected, do not even suspect that the lack of proper corrective glasses is the cause of the trouble.

Edgar Kidd, Registered Optometrist in charge of our Optical Department, has his disposal the latest diagnostic instruments and the most approved methods of examination of the eyes.

—Optical Department, Mezzanine Floor, HBC

## Get Into Print!

IT'S THE SMART THING TO DO THIS YEAR!

Gay young Frocks, that flatter your purse and your person—and they'll never give away the low price you paid for them! Designed with the new necklines and smart puff sleeves that give you that unmistakable 1933 look!

LAND ACT

Notice of Intention to Apply to Lease Land

In Victoria Land Recording District of Sooke, and situated in Cooper's Cove, near Goodridge Peninsula.

Take notice that PERCY KENT WINCH, of Victoria, British Columbia, two maps and a plan, intends to apply for a lease of the following described marine area:

Commencing at the southeast corner of the southwest corner, being about 100 feet east from the northwest corner of Block 12, Section 28, T. 14 N., R. 12 E., and thence north 6 chains, thence northeast 25 chains, thence south 14 chains, thence west 24 chains, and containing 25 acres, more or less.

Dated December 19th, 1932.

PERCY KENT WINCH.

OBsolete LAWS

STILL ON BOOKS

Reuter's Special to The Victoria Times

London.—The conviction of a woman under an Act of Edward III for "seducing those entrusted with the administration of justice" has recalled how many obsolete acts are still on the statute book.

If they were all enforced, which of us could escape conviction? There still exists an old statute of Henry VIII forbidding anyone to have dinner or more than five courses, but of course they were curia in those days, and not the anemic portions of the present days.

The same merry monarch also forbade manual workers to play tennis or football and even dice and ninepins are offences if played by artificers and husbandmen, or by their apprentices.

Legal decisions have also made liable not only the participants in a prize fight but also all the spectators.

Although these laws have become obsolete through the change of public opinion, they still remain legally in force and the courts would be faced with a difficult position if they were invoked.

## Larger Cash Balance Is Shown By Bureau

Auditors' Statement, Showing Financial Standing of Publicity Bureau Here, Presented at Annual Meeting in Chamber of Commerce To-day; \$2,565.24 On Hand at January 31

The Victoria and Island Publicity Bureau finished the year ending January 31, 1933, with a cash balance of \$1,472.58, more than that of the preceding year. It was revealed in the financial statement submitted to members at the annual meeting of the bureau in the Chamber of Commerce to-day. The cash balance last year was \$1,472.58, against \$2,565.24 for the twelve months just completed.

## STREAMLINES ARE NOT EXACTLY NEW

## METROPOLITAN HAS BANQUET

Hundred Fathers and Sons Attend Annual Gathering

The annual "Father and Son" banquet of Metropolitan United Church was held yesterday evening in the school room with more than 100 men and boys attending.

The chair was taken by Rev. J. H. A. Watt at 6:30 o'clock and the catering was carried out by the Ladies' Aid.

Following the dinner the chairman led a singing, the accompaniment being provided by Vivian Shookmaker.

George Cliff proposed the toast to the fathers and Rev. T. H. Nuttall responded and also gave a brief address on "Modern Torch-bearers."

Seven senior Trail Rangers, led by Donald McCain, gave a demonstration of a model meeting and Lester Langley gave a brief report on the proceedings of the Boys' Parliament.

An amusing radio stunt was presented by five Tuxedo boys, the group including Douglas Hunt, John Jewsbury, James Smith, Donald Wheldon and Jack Church.

## To-day's Birthdays

WEDNESDAY, FEB. 8

W. Williamson, 500 Joffre Street, Victoria (5).

Norman Spencer Land, 1517 Burton Avenue, Victoria (14).

Isobel Wardrop, 1230 Queen's Avenue, Victoria (5).

Jean Drane, 3257 Orilla Street, Victoria (12).

IRONQUOIS NOT ABLE TO DOCK

Because of a howling northeast gale sweeping over Port Angeles, the Ironquois was not able to dock at that port this morning, and she returned to Seattle instead of coming on to Victoria.

The Ironquois arrived off the Spit at Port Angeles at 6 o'clock this morning but was unable to go in-land because of the wind. She remained in the vicinity for three hours and then headed back for Seattle.

She will be here to-morrow morning on schedule. E. E. Blackwood, local agent, said to-day.

## AUTO SHOW IS PLANNED HERE

Display of Cars, Airplanes, Motorboats and Other Features Considered

Plans were laid before the Victoria Automobile Dealers' Association yesterday by Aubrey H. C. Jones for a big automobile and aviation show during the first four days of March, in the Bay Street Armories.

The show would include displays of latest models of cars, airplanes, motorboats and motorcycles as well as women's wear in a special section.

The automobile dealers promised their co-operation in the event which, if staged, will be the first of its kind since the war.

Unusual entertainment features with local orchestras in attendance, are being considered for the show.

Efforts are being made to have premier-dormie and other provincial and local leaders to officiate in the opening of the show. A number of competitions are also being discussed for the event.

year-round living quarters for the gorilla. The other half will be available as an open-air exercise yard for them in warm weather, but when they are confined to their quarters it can be rapidly transformed by means of a revolving screen and side screens into a covered hall for visitors from which they can watch Moira and Mok in their inner suite. The gorillas will at all times be protected by a glass screen from germ-carried infections from the public.

The indoor suite will be composed of a large winter cage backing on to two separate feeding cages, which again will open into two sleeping compartments. In their new and spacious quarters these two man-like apes will be able to give free play to their natural activity by swinging, climbing and playing ball, so that by exercising and developing their muscles they may have a chance of reaching their full stature. This new method will mark an epoch in the keeping of the man-like apes and should please both the inmates and the public.

# Gala Programme Completed For Indoor Track Meet Saturday

## THE SPORTS MIRROR

Entry of Somerville in British Amateur Welcomed in Great Britain

Edinburgh Golf Editor Heaps Praise on Great Canadian Golfer

Red Grange Fourth of Five Great Athletes to Quit Competition

ROSS SOMERVILLE'S announcement of a visit to Great Britain this summer and to compete in the British amateur golf championship at Hoylake has caused quite a furore in the Old Country. English critics are greatly enthused over the prospect of seeing the Canadian holder of the United States amateur crown in action. The golf editor of the Edinburgh Scotsman, commenting on Somerville's entry, bestows high praise on the ability of "Sandy."

The comment follows:

"When C. Ross Somerville, London, Ontario, won the U.S. amateur championship the exceptional merit and circumstances of the feat were recognized as a great new impetus to Canadian golf. His success was bound to influence young golfers in that country and to advance their game. Somerville's triumph was a combination of skill and championship courage. He has served Canadian golf well by taking the U.S. cup out of the United States for the first time since Harold Hilton brought it here over twenty years ago."

"Now Somerville has decided to extend his missionary effort, and by his recent decision we are to see him in the British amateur championship at Hoylake. He will be an attraction, for though we have had U.S. champions in this country before, we have never had one located in Canada. Apart from that novelty, Somerville will be a real 'probable' for the title if he can reproduce the form that has won him the U.S. honor and several championships in his own country. Being an athlete of all-round capacity, he can stand the racket of a big week's golf; he plays football, hockey, and was some years ago a representative cricket visitor to these shores."

"Somerville will be welcome over here, and I fancy that his powerful game should suit the Royal Liverpool course with its long and fast holes at the finish. He will come as an empire golfer, and will receive many congratulations here on winning the U.S. title for one of the Dominion's just when our best amateur, Eric McRivie, had failed to qualify."

"The United States has no shortage of praise for the manner in which Somerville bested his rivals. He was regarded as one of the best players ever held there, and certainly as the keenest in competition from the first round to the last. He was spotted as a likely winner or at any rate among those with the best chances. He was the only one to win the event before, and although the odds against any competitors in such a big event are long, Somerville's success was no surprise."

"He proved a stiffer in more than one hard match, a dour quality I like to think he derives from his Scottish connection, and it was especially illustrated in his last round, a young player who a year or two ago set the United States talking by his defeat by Bobby Jones in the first round of the championship. This youngster played great golf and though one down to a 71 on the first round he got ahead of Somerville and was two up with nine to play. But the Canadian got through by 2 and 1."

"The man from Canada was right on his game with all the clubs. His driving and putting were always good, but the experts were agreed that the winning department of his golf was the iron, for he was stronger on the greens and more accurate at the hole in-between strokes than anyone else in the competition field. His iron play was in fact probably as good as any ever seen in the event, and that compares favorably with the play of former years, and Bobby Jones more recently. It is an interesting coincidence that must be noted in connection with Somerville's visit to Hoylake, that when the amateur was last there an overseas player, Len Mettiferd, the left-hander who has again won the Tasmanian title, got into the last eight."

One by one the great men of sports most glorious era have faded from the picture. The other day in Los Angeles Red Grange announced he was through with the gridiron. That means that of the five dominant champions of the golden decade only Babe Ruth remains. The others, Jack Dempsey, Bill Tilden and Bobby Jones have reached the end of their splendid competition."

Grange, a little fat now, nearly thirty, finds that the flame that swept him to greatness on the United States football field, unparalleled by any player since 1919, has burned itself to all ember. It always will be easy for American fans to remember him; those long strides, suggesting lightning, the sudden swerve and the flashing "77" that ranged up and down hundreds of the fields. Michigan was going to stop him. He scored four touchdowns in twelve minutes. Pennsylvania was going to stop him. He raged up and down a snow-covered and muddy field like a meteor. Ohio State was going to stop him. But he went through them just the same as any other team. Nobody stopped him. Finally time has forced him out. Grange tried playing pro ball again last season, but found the going too tough."

## Great Entry List Filed For Sports Week Feature Here

Elaborate Plans Made to Speed Up Events; Three Attractions to Run Simultaneously at Horse Show Building

### Final Programme Announced To-day

Over Sixty Track and Field Performers to Compete; Good Boxing and Wrestling Arranged

From the first notes of the Gizeh Temple Shrine band, playing the tune which will herald the opening of Victoria's first indoor track and field meet, to the final words of the announcer, declaring the winner of the last event, there will be something doing all the time at the Horse Show Building on Saturday evening as leading runners and field athletes, boxers and wrestlers strive for honors and give their services to the Kiwanis sponsored charity.

### AS A THREE-RING CIRCUS

Elaborate arrangements have been made in setting up the meet, which will be staged along the lines of a three-ring circus. Events will be run off in quick succession in the track lists, while in the infield, jumps will be carried on during the races. At the same time, in a specially constructed ring, boxers of the Canadian Scottish and wrestlers of the Y.M.C.A. under the direction of Dave Lewis and George Lovatt, respectively, will go through their paces before the crowd. These arrangements have been made to avoid long waits between contests which sometimes drag out the programme. It is hoped the entire meet will be completed two hours after it starts at 7:45 o'clock.

### THROUGHOUT THE EVENING

the spirit of sportsmanship will reign. The athletes will strive their hardest for the love of the game and for the charitable purposes for which the meet is being staged.

### KEEN COMPETITION

When entries for the various events closed yesterday, forty-seven men and boys and fifteen girls had stated their intention of competing. These include all the cream of the city's performers in their respective specialties. Several island champions are among them as well as one or two provincial titleholders. The meet in the city will not lack in competition lacking. They will be up against men and women who have given them close runs in outdoor meets during last year. In addition to the attraction of the event will hold, the standard of performance should merit great support from the city's sporting fraternity as Victoria makes its first venture along the lines of a miniature Milano Games.

A feature of the indoor track will be the added spectacular interest of the races run on the limited oval. They will be run at close range, and spectators will be able to follow them easily from the grandstand admirably suited for an event of this nature.

To ensure the satisfactory running of the different features, the leading authorities on the various sports in the city have been secured as officials. This youngster played great golf and though one down to a 71 on the first round he got ahead of Somerville and was two up with nine to play. But the Canadian got through by 2 and 1."

## DANDURAND ANNOUNCES HIS PLANS

Gizzy Hart and Arthur Alexandre Will Remain With Montreal Canadiens

Marty Burke Will Be Given Another Chance; Murray and Trapp to Minors

Montreal, Feb. 8.—Early this morning after several hours' consideration of the play of his squad in yesterday evening's National Hockey League game with Toronto Maple Leafs, Leo Dandurand, managing director of Canadiens, announced the following moves: Leo Murray, centre, and Bob Trapp, defence, rejoin Providence Reds. Marty Burke, who was out of uniform yesterday evening, will be accorded another opportunity to regain his form and will play in the next Canadian game.

Gizzy Hart, veteran winger, and Arthur Alexandre, centre, both of whom joined Canadiens for yesterday evening's game, will be retained by the club. Trapp came to Montreal on a one-game arrangement, it was announced. Although his work was considered satisfactory in view of his strenuous schedule lately with the Canadian-American League club, it was by previous arrangement that he was sent back. One more player will go to the Reds in the near future, Canadiens having returned only two men for the three who came here Monday morning.

Performance of Hart and Alexandre was considered satisfactory enough to justify their retention by Canadiens, temporarily at least. Burke, a defensive pillar for six years, had not been dressed for the game and his hockey future was very much in doubt. Dandurand announced he would be given another chance.

## MURDOCK WINS OVER FILIPINO

Veteran Oklahoma City welterweight Captures Decision From Sammy Santos

Seattle, Feb. 8.—Eddie Murdock, bald-pated Oklahoma City welterweight, outboxed Sammy Santos, Seattle, in a six-round bout here yesterday evening, and added the Filipino to his list of ring victims.

Murdock weighed in at 148 and Santos, 144.

In a blaze of glove tossing, the Oklahoma lad outscored Santos in four of the six rounds, despite a stubborn and determined scrap put up by the Filipino.

Murdock had a shade in the first two rounds, and won the third and the sixth, while Santos won the fourth and the fifth was even.

WHIPPED FIELDS  
Murdock, who fought in San Diego last Friday night, and recently outboxed veteran champion Jackie Fields, showed more speed and a fast left hook and his rise-sneakiness kept Santos missing as he kept tearing in.

In the other half of the double main event, Jimmy Britt, 149, Tacoma, and Kermis Thompson, 148, Seattle, went six rounds to a draw.

Thompson swung a barrage of punches and kept boring in on Britt, who was kept holding in on the ropes, but Thompson, although he took plenty of punishment.

Because of the present unsatisfactory economic condition of the fisheries, it was agreed that the proposed race would have to be self-supporting. Races of past years were financed, both as to expenses and prize money, by contributions.

Lunenburg, N.S., Feb. 8.—"The proportion is all right, but the time is all wrong," said Captain Angus Walters yesterday evening as he declared the Blue-nose would be "very, very glad" to match backs again with Gloucester's Gertrude L. Thebaud, in an international series.

Blue-nose is going fishing in the spring, he rugged little skipper said. "We can't break up a trip to race in August," he said. "But October—yes, we'll take them on then."

## Citizens Gather At Sports Dinner

Large Attendance at Event Sponsored by Kiwanis Club As Feature of Sports Week; B. C. Nicholas Gives Resume of Sports in Early Days of Victoria

"Heaven help the nation that does not preserve its interest in sports," declared B. C. Nicholas, chief speaker at the big dinner of sportsmen, their wives and families held at the Hudson's Bay dining-room yesterday evening as one of the features of the Sports Week being sponsored by the Victoria Kiwanis Club. Attended by representatives of nearly every branch of sport the affair was an outstanding success. J. B. Clearhue, president of the "Kiwanis" Club, acted as chairman.

Those seated at the head table exclusive of the chairman, Mayor Leeming and Mr. Nicholas included the following sports representatives: Alexander James Adam, Dominion of Canada Football Association; Commander W. G. Brodeur, Royal Canadian Navy; Percy Payne, cricket; Percy Shrimpton, Wednesday Football League; James Smart, Gorge Vale Golf Club; Carey Martin, Victoria Rugby Union; "T. Briggs and Oliver, Junior Football League; C. V. Milton, Lower Island Football Association; J. C. Dowda, basketball, and Mr. Blake, carpet bowling.

Mr. Clearhue opened his remarks by extending the thanks of the Kiwanis Club to the different branches of sport in the city for their co-operation in the first annual Sports Week. The programme was turning out a great success, and emphasized the fine spirit of sportsmanship existing in this city.

Mayor Leeming spoke briefly, stating he was pleased to be present at such a splendid function, and tendered his congratulations to the Kiwanis Club on its splendid endeavor in raising funds with which to buy clothing for needy children. Sports Week deserved the support of all right-thinking people, he said.

Mr. Nicholas gave a resume of the major sports played in Victoria in the last eighteen and nineteen from an observer's point of view. Cricket, rugby, soccer, baseball and rowing were the initial lines of athletic activity to first make their appearance here, he said. Many fine cricket players who had learned the game in British schools introduced the sport to Victoria, with the result that it was played freely among the players taking an active part at that time were the late Hon. Charles Pooley and Mr. Justice Drake.

RUGBY POPULAR  
Rugby football was popular here, largely through the efforts of the officers of the British naval vessels stationed at Esquimalt. Mr. Nicholas stated. These men were athletes of the finest type and their teams of superior calibre. Matches between Victoria and Nanaimo were classic events, the speaker stated. At that time the upland fifteen was the only outside team to perform here.

Soccer was popularised here largely through the efforts of settlers from the Old Country and produced many fine local players. Mr. Nicholas said. The game was also popular in Ladysmith and Nanaimo. One of the prominent players on up-island team was James Adam, at present an alderman on the City Council.

## FIGHT CARD IS MADE UP

Complete List of Bouts For To-morrow Evening's Show Is Announced

The complete programme of bouts for the boxing card at the Pacific Stadium to-morrow evening was announced to-day by officials of the Victoria Boxing Club. Five matches have been arranged including the two ten-round main events between Albie Davies and Tommy Santos and Jumbo Davies and Pastor Calope.

The card, along with the officials, follows:

Four rounds at 118 pounds, Dave Barr, Victoria, vs. Mowrie Graham, Victoria.

Four rounds at 135 pounds, Scotty Maitland, Rocky Point Camp, vs. Jack Foy, Victoria.

Four rounds at 145 pounds, Jack McEvoy, Duncan, vs. Danny Pastore, Victoria.

Ten rounds at 140 pounds, Albie Davies, Victoria, vs. Tommy Santos, Manila.

Ten rounds at 138 pounds, Jumbo Davies, Victoria, vs. Pastor Calope, Manila.

The officials: Referee, Joe Bayley; Pat Steel and Al Davies; judges, Scotty McKay and Billy Hall; physician, Dr. J. P. Vye; announcer, Geo. I. Warren; timekeepers, Len Oliver and J. Tait.

Calope and Santos will work out for the benefit of the fans at the Pacific Stadium this evening at 8 o'clock.

## MAY SECURE CUP FIXTURE

One More McKechnie Cup Rugby Match May Still Be Played Here, Union Hears

Victoria may still secure another McKechnie Cup rugby game this season, in spite of word from Vancouver to the contrary. H. J. Ketchen, reporting on the last meeting of the British Columbia Union, told the Victoria organization yesterday evening another of the cup series might be brought to Victoria if the best Big Three game on the mainland is a financial failure.

However, if the Terminal City crowd supported the game, the remainder of the series would be played in Vancouver, he said.

Mr. Ketchen further announced the Rounsefell Cup final, symbolic of the provincial club championship, would be played in Victoria, while the senior B final for the Province Cup would be staged in Vancouver.

Entries for the Cowichan Cup knockout series might be brought in by 20. All teams in the city and on the island are eligible for play in the schedule.

The Rugby Union ordered a replay of the Victoria College-Fifth Brigade senior B fixture of last week in which the Oregandorcho boys trimmed the militia 14 to 0. Playing of Bob Mabey, Canadian Scottish, miffed on the College team was the cause of the replay.

## Slingers, Fosters And Centennials Play-off Winners

Three Victoria and District League Hoop Teams Advance in Island Series

### FOSTERS WHIP CHINESE FIVE

Centennials and Slingers Prove Too Good For Luxton and Lake Hill Squads

Three Victoria and District Basketball League champions advanced another step toward Island honors at the High School gym yesterday evening when Fosters, Centennials and Slingers defeated the Chinese Students, Luxton and Lake Hill, respectively. Fosters opened the evening's activities by taking the measure of the Chinese Students, Sunday School League intermediate Behamptons, 46 to 24. In the second game Centennials downed Luxton, 39 to 23, in the senior O division, while Slingers had everything their own way in downing Lake Hill, 43 to 12, in the men's senior B game. All three games were sudden-death affairs in the lower island play-offs.

Fosters gained a 24-to-16 lead in the first half, a period that was brim full of fast, clean basketball. Both teams used a short-passing, offensive game, working the ball in close to the basket for short shots. Hudson and Foster were the shining lights on the offensive for Fosters in the first half, each collecting six points, while Walter and Wallace Lee starred for the Chinese.

In the second half the game was close until ten minutes from the final whistle, when Foster broke away with a heavy offensive. Patterson and Wilson started a tremendous scoring rally and the Sunday School League champions were left far behind.

GAIN EARLY LEAD  
Centennials took the lead from the start against Luxton, and at no time were the local champions in danger of facing defeat. In the first half they gained a 20-to-7 lead, mainly through the scoring of Blair, Crawford and Paulding. In the second half Luxton played much better.

Slingers were far too good for Lake Hill and scored practically at will. Mike and George Lannon, with twenty-eight points between them, were the big guns in Slingers' attack, although the entire team played great basketball.

Art Chapman, Tommy Macedo and Alan Lemarquand refereed. The teams and individual scorers follow:

Fosters—Hudson (8), Surphill (2), Foster (6), Fields (4), Patterson (10), Florence (4), Wilson (9), Finlayson and McKean (3).

Chinese Students—Walter Lee (8), P. Nipp, R. Lowe, S. Leung (4), G. Lowe, C. Ham, M. Lowe, P. Lowe (2), W. Lee (10) and H. Chan.

Luxton—Rhodes (2), N. Rhodes (3), Rutledge, Shields (14), Charters (2), Smith and McMillan.

Centennials—Hatch (3), Paulding (9), Taylor, Blay (11), Norrington (12), Viggo (8), Crawford (11) and Belcher.

Slingers—C. Sluggert (3), Mitchell (3), Clarence Sluggert (7), G. Lannon (14), Butler (2), Andrews and M. Lannon (14).

Lake Hill—M. Atkinson (5), Mitchell, Cunningham (2), P. A. Atkinson (2), L. Styann (3), Bates, D. Styann and Morgan.

New Haven, Conn., Feb. 8.—Philadelphia Arrows regained first place in the National Hockey League yesterday evening by defeating New Haven 2 to 1. Wilson and Coon scored for Arrows and Hudson for New Haven.

Pro Hockey Teams Play at Seattle  
Seattle, Feb. 8.—Four former Seattle professional hockey players will play the Calgary Tigers of the Western Canada League in an exhibition game here on March 1, in an exhibition game between the Tigers and the Vancouver Maroons, officials announced yesterday.

The game will probably be the only professional exhibition here this season.

## Gene Pusie Leads Vancouver To Win

Defence Star of Maroons Scores Two Goals and Gives Pair of Assists in 4 to 2 Victory Over Saskatoon in Western Canada Hockey League Game

Vancouver, Feb. 8.—Vancouver Maroons, led by the sensational scoring Gene Pusie, walked into a fast Saskatoon squad and handed the lads from the prairie a 4-to-2 defeat in their first appearance in a Western Canada League hockey fixture here yesterday evening.

The game was the fastest seen here this season and provided plenty of thrills for the 4,000 fans who turned out. Incidentally, it was Maroons' third straight victory since coming to their new home two weeks ago.

"Dutch" Gainer opened the scoring. Grabbing the puck near his own blue line, he eased through the Vancouver defence, drew Rhesume out of position and slipped the puck into the net. Two minutes later Pusie went down the ice in one of his characteristic rushes, passed up from the corner

## Washington Race Bill Is Favored

Olympia, Wash., Feb. 8.—Horse racing with pari-mutuel betting, licensing of chain stores and the Columbia Basin project met the favor of Washington legislators yesterday.

Attempts to amend the horse racing bill, which provided for a vote of 67 to 30, met defeat, but the senate, while approving the chain store licensing act by a vote of 32 to 13, approved amendments exempting chain stores and lumber yards which carried goods 75 per cent of which were manufactured in Washington, and doing away with the provision exempting stores carrying less than \$1,000 worth of stock.

State They Do Not Consider Touring English Cricketers Are Unsportsmanlike

Melbourne, Australia, Feb. 8.—Australian cricket officials do not consider the players of the English test eleven unsportsmanlike but have directed official complaint to the Marylebone Cricket Club against the "leg-theory" class of bowling employed by Harold Larwood.

This position was made clear in a cable sent the M.C.C. to-day by the Australian board of cricket control.

Regarding the word "unsportsmanlike," which the board had used in a first cable to the governing body of cricket in London, the board to-day said, "We do not regard the sportsmanship of your team as being in question. Our position was fully considered at a recent meeting and as indicated in our cable of January 30 it is the particular class of bowling referred to therein which we consider to be in the best interests of cricket. And in this view we are supported by many eminent English cricketers. We joyfully wish you in hoping the remaining tests will be played with the traditional good feeling."

Harold Larwood, dominant bowler of the M.C.C., used to great advantage "leg-theory" bowling, which is some times referred to as "bogyline bowling" in the last two Tests. The delivery directed at the leg stump and a vicious break makes it very difficult to play. Several of the Aussie batsmen were injured by the ball.

Regina, Feb. 8.—Jimmy Robinson, Glenavon currier, for the second successive year has stolen most of the "thunder" and a good share of the glory in the Saskatchewan bonspiel. After winning the grand aggregate medals and the leader trophy, the little general stepped out again yesterday and won the Imperial Life event, taking back with him the two medals of the "spiel."

# Gains In All Wheat Markets As Result Of Cold Conditions

Canadian Press  
Winnipeg, Feb. 8.—Winty conditions in United States winter wheat areas brought gains in all world wheat markets and wheat prices here followed the upward trend in spite of lack of export. Wheat values closed a session of mixed trading 1/2 to one cent higher. May closed at 40 1/2, July at 40 1/2, and October at 39 1/2 to 40 1/2.

The necessary drop in the low 22 below in Kansas and other important wheat-growing states, and this condition, on top of wind storms that left the crop exposed, suggests very serious damage may be done to the new plants.

All advice is of a very bullish nature and the outlook is said to be much more than last year when a partial crop failure was experienced in the winter wheat belt.

Liverpool took some notice of this condition, and also of the reported sale of two cargoes of Argentine wheat to China, with the result that the English market closed fractionally higher.

Interest in cash wheat was very different and no business was reported done. Actual sales of coarse grain were again negligible.

## MANILA SEES CRUISE SHIP

Ss. Empress of Britain There on World Voyage; Shaw and Siamese Prince Talk

Manila, P.I., Feb. 8.—George Bernard Shaw, vegetarian and dramatist, inspected a tank of live turtles port at Singapore, where he was when the world cruising liner was in that port. He made an exception at the Royal House of Siamese not visiting the Siamese capital.

Prince Purachatra, brother of King Prajadhipok, had volunteered to serve as guide. The two men did not meet until the Prince boarded the Empress of Britain for the 4-11 to Manila. On the way here they had many talks. Shaw said their favorite topic was "Communism versus Imperialism."

The Empress of Britain arrived here yesterday evening from Bangkok and will leave tomorrow for Hongkong, the next port of call.

The liner docked here alongside the famous Pier 7 and passengers immediately disembarked to see the many interesting sights this city has to offer. They visited the Walled City and spent hours in the old Jesuit Churches, built by the Spaniards centuries ago, and in the densely thronged narrow streets, where the houses have blue-shaded balconies.

Some of the passengers left by plane to visit the mountain resort of Baguio, 150 miles up in the hills from Manila. Others went to Paganjan Falls and to the mountains of Baguio.

This evening a large dance is planned in the outdoor ballroom of the Manila Hotel. Several parties were made up on board this morning to visit the well-known Santa Ana cabaret and Toni Dix's kitchen. No visit to Manila is complete without a call at these places.

The crowded native sections, near the Pasig River, which cuts the city in two, have much of interest. One of the greatest markets in the Orient is situated there and the shops are attractive with the native wares of the Philippine Islands.

## FUNDS VOTED FOR PUBLIC BUILDINGS

Canadian Press  
Ottawa, Feb. 8.—Estimates for public buildings in every province passed the House of Commons yesterday evening with a minimum of discussion. Estimates for harbor and river improvements in the Maritime Provinces also passed, but the items for Quebec and Ontario were held over for further information from Hon. H. A. Stewart, Minister of Public Works.

Included in the items was \$500,000 for postal terminal building in Montreal, but the minister said its construction would depend on revenues. Consideration of \$750,000 for public

## BUSINESS COSTS TO BE DEDUCTED

Concessions to Professional Men Also Set Up in New U.S. Income Tax

Use of Motor Car in Business to Be Distinguished From Pleasure Use

By ROBERT TALLEY  
Washington, Feb. 8.—Business men, professional men, farmers and corporations have increased taxes in Federal income taxes in the new law.

The tax on corporation incomes is increased from 12 per cent to 13 1/2 per cent; to 14 1/2 per cent in the case of corporations filing consolidated returns. The \$3,000 exemption formerly granted to small corporations has been eliminated.

Incomes of business men, professional men and farmers are subject to the same tax increases as those of salaried persons or wage earners and to the same personal exemptions and credits.

Business men, professional men and farmers are also entitled to certain deductions which reduce their taxable incomes.

Typical deductions allowed for a mercantile business are amounts paid rent, light, heat, hire of clerks and other employees, advertising, stationery, stamps, telephone, delivery and express charges, incident to the conduct of the business. The expenses of a manufacturing business include labor, supplies, power, selling costs, administration, and depreciation.

The farmer may deduct all amounts paid in the production, harvesting and marketing of crops, including labor. He can also deduct for repairs to his farm buildings, but not to his dwelling.

A doctor, dentist, lawyer or other professional man may deduct all necessary expenses in the pursuit of his profession. These include his rent, salary of assistants, cost of supplies and even the expense of operation of an automobile used in making professional calls.

If a physician uses part of his home for an office he may deduct, as a business expense, the rental value of the rooms so occupied. Also he may deduct a portion of the wages paid domestic servants, whose time is partly occupied in tending for these rooms. Membership dues in professional societies may also be taken off.

AT LOS ANGELES  
If a business or professional man uses the same automobile for both business and pleasure he should allocate the operating expense on the basis of the time used for each. For example, if the total expense of operation and maintenance, plus depreciation, in the taxable year amounted to \$800 and the car was used three months for business, he would be allowed to deduct from his taxable income \$800.

Traveling expenses, if incurred in the course of one's business or profession, are deductible. This includes the amounts spent for food and lodging and even for tips—but the law says tips must be "reasonable."

For the benefit of automobile owners, it should be explained that regardless of whether the machine is to be used for business or pleasure—the purchase price of a automobile cannot be deducted from income. If used for business it is a capital expenditure; if used for pleasure, it is a personal expenditure—and both deductions are expressly prohibited by law.

However, if used exclusively for business, all expenses of operation, plus depreciation, can be deducted. In either case, it is permissible to deduct sums paid for registration fees, taxes, etc. While the federal gasoline tax of one cent a gallon cannot be deducted by the consumer, credit may be obtained for state gasoline taxes if the state levies this tax on the consumer and not on the dealer.

## GOVERNMENT EMPLOYEES

Even President-elect Roosevelt must pay an income tax on his \$75,000-a-year presidential salary after he takes office March 4, since the revenue law levies this tax on the income of the president and of federal judges who take office after his enactment. Congressmen, senators and all federal employees are already paying.

City, state and municipal employees, however, are exempt from the federal income tax if their services are rendered in connection with the exercise of an essential governmental function, such as the operation of a city's fire department, police, or public utility.

For example, the governor of a state, the mayor of a city, councilmen, school teachers, firemen and policemen do not have to pay income taxes to Uncle Sam, but the tax must be paid by employees of a municipal water plant, electric light plant or street railway since their services are not proprietary rather than governmental in character.

## HIGHER LEVELS AT MONTREAL

Canadian Press  
Montreal, Feb. 8.—The whole list moved higher on the Montreal Stock Exchange today. The closing tone was strong and some issues finished the day with fairly substantial advances.

International Nickel was very active, touching 10 for the first time this year. The issue closed at that figure, up 1/2. Consolidated Smelters jumped up 1/2 to 34 1/2 and Canadian Pacific was an exception to the general trend, easing 1/2 to 12 1/2.

## RAILS ARE STRONG AT NEW YORK AFTER AN EARLIER CHECK

NEW YORK STOCK EXCHANGE WEDNESDAY, FEB. 8

Canadian Press  
New York, Feb. 8.—Stocks worked higher in quiet dealings to-day. Rails came to the fore in the late trading after an earlier advance had been checked by heaviness of tobacco shares and toward the close advances of around a point appeared for Union Pacific, Santa Fe, Dupont, Case American Telephone and United States Steel preferred.

New York Central and Pennsylvania firmed moderately, together with Allied Chemical, General Motors, Consolidated Gas and Borden. Tobacco shares halved extreme losses of one to two points. National Biscuit was off nearly a point.

Sales approximated 700,000 shares. Shipping and industrial rayon were bid up moderately.

General Motors issued a January sales report showing that purchases by consumers in the United States aggregated 50,553 cars, actually above the 47,222 reported in January of 1932.

PIONEER STILL MOVES UPWARD  
All the interlisted shares were strong except C.P.R. which lost a fraction. Brazilian and Ford gained fractions and Snider advanced more than 5 points, on the strength of the better tone for the copper.

In the utilities section Bell Telephone came back to 89, Montreal Power picked up a half point and B.C. Power A was slightly stronger.

Both the food and beverage issues registered gains. Dominion Stores went against the trend, slipping a fraction to 10 1/2.

NEW YORK MONEY  
New York, Feb. 8.—Call money steady, 1 per cent all day.

Time loans steady; 60-120 days 1/2; 3-6 months 1/2 per cent.

Prime commercial paper 1 1/2. Bankers' acceptances unchanged.

How To Bring Up  
Modera  
Son

Tells Rules  
Of  
Successful  
Life

## Good Manners, Industry and the Ability to Get Along With Others Are Next in Im- portance to Good Principles to the Boy Who Wants to Succeed in Life, Says Dorothy Dix

MOTHER asks: "If you had a boy to bring up, what would you teach him?"

Well, I should teach him first to keep clean, within and without, to fear God and speak the truth.

Then I should give him a chance at education, but while you can lead him to the fountain of culture, you cannot make him imbibe of its waters, and if he would not study I would let him to work. I would not let him waste my money and his time and acquire lazy habits, loafing for four years for the sake of acquiring a university diploma, a sweater with a letter on it and a college yell.

I should begin in my boy's babyhood teaching him the amenities of life. Good taste. Good manners. How to make the best of himself in every way. There is no more reason for letting a boy grow up uncivilized than there is for admitting a girl to be a little savage. Yet mothers who take infinite pains to drill their daughters in the usages of polite society permit their sons to remain uncouth bores.

I should teach my boy how to dress. I should tell him that while a heart of gold may beat under a coat with grease spots on it, and while a twelve-limbed brain may function under a battered hat, no one is going to take the trouble to find out that the man who looks like something that the devil brought in is really a genius and an estimable character. For all we need, as by our appearance. It is all they have to go by. And if a man isn't enough to keep himself well groomed, they naturally conclude that he is stupid and shiftless and not worth bothering about.

I should teach my boy good manners, because good manners are a better credit to the world over. I should drill him in table etiquette until he felt it was almost as great a sin to use the wrong fork as it would be to break one of the Ten Commandments, for I have known more than one man who lost out on the proposition he deserved because of his table manners. I would teach him to be a good guest, to be a good host, to be a good waiter, to be a good employer. I would teach him to be a good customer, to be a good neighbor, to be a good citizen. I would teach him to be a good man.

I should teach my boy how to get along with other people, because his success in the world will depend mainly on that. So many men of ability fail because they cannot get along with those with whom they are brought in contact. They quarrel with their bosses. They get into rows with their associates. They offend customers and they lose out because nobody wants to do business with an individual who has to be handled with gloves.

The ability to do teamwork is one of the greatest assets a man can have, and so I should teach my boy how to play the game. How to be a good sport and not whine when he loses or boasts when he wins. I should teach him self-control, how to keep his temper, how to give the soft answer that turns away wrath, how to see the other fellow's point of view, how to gumshoe around other people's prejudices instead of bumping into them.

I should teach him while he was very young how to stand on his own feet and make his own decisions, and when he made mistakes I would let him pay for them, because in that way only can he learn prudence and wisdom. I should teach him how to handle money, so he would know its value and he would not be a spendthrift nor a tightwad. And I should impress upon him with all the force of which I was capable that the man who never learns to save is some other man's slave as long as he lives.

I would teach him everything I could about life. I would tell him of the temptations that will beset him, and that it is up to him whether he resists them or yields to them. I would tell him that those who dance must always pay the piper, and that if in his youth he sows a wild-oat crop he must inevitably reap a harvest of disease and premature senility and death. I would tell him that it is not true that only the woman who sins pays and pays and pays. The man pays, too, with broken body and broken mind.

I would teach him how to make a living. I would see to it that he had some trade or profession by which he could support himself. Half of the over-do-wells in the world are the result of their parents never having taught them how to do any one thing well enough to earn a decent wage. They had no skill in any line that would command more than the most meagre wage, so they grew discouraged and quit trying to do anything at all.

And I should teach my boy industry, which is only a habit, and promptness, and to finish the job to which he set his hand, and pride in craftsmanship, and sympathy of their natures and the problems they must face, and that would make him a good husband and would do more than any other one thing to insure him a happy marriage.

## Dog Devoured By Savage Cat

### Setter Fought Grim Battle With Cougar in Forest But Came Off Second Best; George Nordstrom Tells Story of Nature in the Raw

George Nordstrom, who discovered the Zeballos River Mine, arrived in town by the S.S. Princess Maquinna from Esperanza Inlet with a grim story of a battle to the death in which a cougar killed a valuable camp dog and consumed the carcass.

The incident happened last week when two trappers, A. Bird and A. Smith, partners with Mr. Nordstrom and H. Malberg in the Zeballos Mine, set out to fell a tree for fuel purposes, accompanied by Nellie, an Irish setter. Picking up the scent of a cougar in the forest the dog disappeared, but was not missed until the men returned to the camp.

Next day they set out with another dog in search of Nellie and soon came upon a large cougar, which they shot and skinned.

Noticing fur scattered about the spot, and traces of a desperate fight, the trappers decided to follow a hunch and investigate further. They skinned the dead cougar, but upon the animal found the remains of Nellie in the dog's stomach. The cougar had devoured the dog completely.

Mr. Nordstrom is in Victoria to-day for the purpose of incorporating the Zeballos Mining Company. The Zeballos River Mine on Esperanza Island, West Coast of Vancouver Island has deposits of gold, silver, copper, lead and zinc, he says. The mine, which has been treated at the Tacoma and Trail smelters, is assayed at \$100 to the ton.

A twenty-foot shaft has been sunk at the mine and a number of men are engaged in the operations.

## POLICYHOLDERS WILL GET MORE

### Increased Profits in Future Announced in Annual Report of Great-West Life

That life insurance has prospered in the past year is shown by the fortieth annual report presented by the Great-West Life Assurance Company.

The large sum of \$2,795,389 was earned by the company over and above the amounts required for dividends to shareholders and profits to policyholders. The surplus and contingency reserve show a material increase, while there has been a considerable decrease in expenses. The favorable mortality rate for which the Great-West Life is noted has been continued.

The assets, which have increased to \$135,736,366 show a well-balanced investment portfolio and have the following classification percentage:

Bonds and debentures	34.1
City mortgages and properties	22.2
Policy loans	22.7
Farm mortgages and properties	18.5
Stocks, common and preferred	4
Cash and miscellaneous	1.0

The president, George W. Allan, in commenting on the company's investments, stated: "We have maintained a strong liquid position and our holdings of government bonds have increased substantially both in amount and in relation to other assets."

An encouraging feature of the report of the general manager, C. C. Ferguson, was the announcement of the decision to increase profits to policyholders, the increase being general but applying particularly to the older policies. He pointed out the considerable increase in payments to policyholders and drew attention to the fact that since April, 1932, there had been a slight but fairly consistent decline in policy loans.

The business in force is \$580,536,809 and half of this is in western Canada. During its forty years of life insurance service the company has contributed greatly to the progress of western communities.

J. R. Nicholson is the company's branch manager for Victoria.

# MANY CANADIANS GO BACK TO THE LAND

## This image shows a blank, aged, cream-colored page, likely an endpaper or flyleaf of a book. The paper has a slightly textured appearance with some minor discoloration and faint smudges, characteristic of old paper. The left edge of the page shows the binding of the book, and the overall tone is warm and off-white.
